Summary of other consultative efforts with local taxing districts, such as further meetings, surveys or analyses of potential zone activity, tax revenue effects (include copy of meeting minutes, other materials, etc).

The Portland Development Commission contacted all taxing jurisdictions that levy taxes within the East Portland E-Zone (Zone) boundary. Materials provided at a public meeting on June 6, 2012 are included in Appendix B, along with a meeting summary, comments received, a list of district contacts in attendance, and a copy of the notice sent 21 days in advance of the meeting.

Summary of any agreed follow-up, actions or arrangements if zone is designated (include agreement copy, etc).

If approved, PDC staff will coordinate with a representative from the Multnomah County Tax Assessor's office (presently Albert Jinkins).

The June 6, 2012 taxing jurisdiction meeting did not result in any requests for follow-up other than information about taxes foregone from the existing Portland Enterprise Zone. The request was made by the Portland Public Schools representative and was not contingent upon offering support or opposition to the application. Multnomah County Chair Cogen submitted a letter of support to the director of Business Oregon.

Significant Land for Enterprise Zone Development

For sites that are ...

1. Encompassed by proposed zone boundary,
2. Industrially zoned, vacant/improvable or otherwise suitable for use by eligible businesses and
3. Approach a degree of “project readiness” relative to site certification by the state—development could commence in 180 days or less time (see [Oregon Certified Sites](#) Web page)

507 Total Acres 8 Sites with 20 or more acres 13 Sites with 10 or more acres
Recommended minimums: Urban/Rural zone—50/30 total acres or two sites of 20/10 or more acres

Describe additional points about relevant acreage in the proposed zone—names of site(s), notable attributes of certain locations, extent that proposed enterprise zone land outside of urban growth or unincorporated community boundaries is only for industrial/commercial use, sufficiency of transportation capacity for development, etc.

The Zone boundary is entirely within the limits of the Urban Growth Boundary (UGB), Multnomah County, and the City of Portland.

All parcels within the Zone were selected based on their current zoning (industrial, employment or commercial), uses and geographic location. Many sites are not developed, underdeveloped or partially developed and offer significant opportunities for new investment. Highlights of the land area include eight sites of 20 or more acres of suitable land; and 13 sites of 10 or more acres.

Many sites lie within the Planning District known as the Columbia South Shore, located roughly between NE Sandy Blvd. and the Columbia River, and east of Portland International Airport to the city limits. Much of this area is within the Airport Way Urban Renewal Area which has benefited from a significant transportation infrastructure investments over the past 25 years. These investments and the prevalence of industrially-zoned properties position this area as an attractive location to take advantage of the Enterprise Zone program.

The City of Portland is committed to fostering industrial development in these types of areas through land use and investments that promote and encourage industrial expansion and growth within the city limits

Measures of Economic Need and Hardship (continued)

7. **Summary of alternative economic statistics and circumstances (option)**—describe, as desired or appropriate, in addition to criteria address on previous page, other matters with respect to economic need and hardship, such as recent business closures, special designations, a combination of factors, etc.

East Portland has seen substantial population growth, with a notable influx of lower-income residents. However, job and economic growth has not occurred at the same pace. This disconnect has led to disparities between this area of the city and more centrally located communities. Seventy-seven percent (77%) of the proposed Zone boundary lies within City designated Priority Neighborhoods. These neighborhoods experience higher poverty rates than the citywide average (16%, 2010 Census) and/or lower than citywide median household income (\$48,500, 2010 Census).

East Portland is also becoming increasingly more diverse. Communities of color face disproportionately high levels of poverty. According to a recent report from the Coalition of Communities of Color, the child poverty rate among children of color in Multnomah County is 33 percent, while that of white children is 13 percent. Similarly, black and Native American residents make only 47 - 48 percent of the citywide median household income. Without additional tools for investment, the persistent educational achievement gaps and employment disparities will continue to widen.

The proposed Zone is located within a designated Multnomah County Distressed Area, defined by the State of Oregon as a county with an unemployment rate that exceeds eight percent.

Capacity to Succeed in Inducing New Investment and Job Creation

1. **Summary of education, training, counseling and job placement opportunities**—planned/available programs, relation to proposed zone, appeal to businesses, capability to enhance workforce quality, skill level and earnings capacity, etc.

The proposed Zone shall adopt the same formal policy that regulates the active Portland Enterprise Zone (Appendix F). This policy includes job training, job placement and other obligations that intend to maximize the community benefits derived from qualified companies enrolled in the program. In accordance with the policy, the Portland Development Commission (PDC), as the designated Zone manager, will collaborate with Worksystems, Inc. (WSI) and Worksource Oregon to achieve the guidelines outlined in the Workforce Training and Business Development section of the local policy (sections 5.5 & 5.6 of the East Portland E-Zone Policy).

PDC will enter into an agreement with WSI and continue to work with Worksource Oregon to increase job training and placement opportunities per E-Zone Policy.

Additional information—in lettered appendix/ tab: F

2. **Summary of local economic development history and activities**—for example, past achievements. Preexisting enterprise zones should **not** respond here.

See Appendix G

Additional information—in lettered appendix/ tab: G

3. **Summary of recent and programmed enhancements to public infrastructure/services**—transportation, utilities, public safety, etc, that would generally further business development in proposed zone.

In the Zone, the City of Portland has an estimated \$151,000,000 of infrastructure investments currently underway or planned to start construction next fiscal year (2012/13). These investments will directly benefit residents in and around the Zone as well as existing and prospective businesses in the area. Many of these projects are within two Urban Renewal Areas which overlap the Zone – Lents and Gateway. In these cases, the capital projects may receive tax increment bond proceeds and are targeted to leverage development and redevelopment in each district respectively. A complete listing of all capital projects underway or soon to be underway in the Zone is included in Appendix H.

Additional information—in lettered appendix/ tab: H

4. **Summary of local incentives for enterprise zone businesses**—address fiscal impact (see OAR 123-668-1300). Becomes obligatory/binding if zone is designated.

See Appendix I

Additional information—in lettered appendix/ tab: I

5. **Summary of attributes and plan for marketing**—for example, efforts to promote local business expansion, retention, start-ups or recruitments, and steps to enhance the value and local knowledge about using the enterprise zone.

PDC uses a variety of methods to promote programs and the availability of financial assistance, including websites, hard copy materials, and the use of social media. PDC staff will be trained to discuss Zone features and benefits in their business retention and recruitment appointments, as well as through meetings with developers and potential investors. Staff will also leverage public participation tools by informing the nearly 100 community volunteers who serve on PDC-managed citizen advisory committees throughout the Zone. This marketing will also expand to ensure official business and industrial associations throughout the Zone are aware of the availability of the program as a tool for job creation and private investment.

PDC also meets regularly with real estate firms that serve the Portland market explaining our services and marketing PDC programs such as the Zone.

Additional information—in lettered appendix/ tab:

6. **Summary of relevant strategic planning**—objectives, analyses, actions, measurements, etc, to enhance/leverage resources, collaboration, social issues, local entrepreneurship, quality of life, community efforts, etc.

See Appendix J

Additional information—in lettered appendix/ tab: J

7. **Further information on sites**—especially acres/parcels in proposed zone that are available and generally ready for immediate/near-term business development in terms of regulations, infrastructure, etc, as well as the quality/quantity of local industrial, overall usability of zoning ordinances, real estate, SDC and other costs, etc..

The Zone program will be administered by staff who administer the existing E-Zone, located in North and Northeast Portland. PDC staff has considerable experience identifying available and appropriate land for companies looking to invest. PDC staff assists firms interested in locating or expanding in Portland. Staff also tracks and identifies industrial development opportunities.

Portland's industrial areas have the advantage of an extended network of rail, river and road transportation options. The metropolitan region strives to capitalize on these advantages through its land use planning process, which includes state requirements for cities and counties to inventory and maintain a supply of industrial lands sufficient to accommodate job-generating development that provides high wage jobs. To further this effort, PDC works with local and regional entities to identify brownfields that can be converted to productive use through policy changes and incentive programs.

**CONSENT TO ENTERPRISE ZONE AND ELECTRONIC COMMERCE DESIGNATION
APPLICATION BY THE CITY OF PORTLAND**

June 13, 2012

Presented by: Lise Glancy, Manager
Regional Government Relations**EXECUTIVE SUMMARY**

This agenda item requests consent to an Enterprise Zone and Electronic Commerce application by the City of Portland, located within Port of Portland (Port) boundaries, to provide additional incentives to encourage existing or new companies to undertake new capital investments and add employees within East Portland.

BACKGROUND

In the 2005 legislative session, the state statute for the Enterprise Zone program was changed to require the governing bodies of a port district to consent by resolution to Enterprise Zone applications by a city or county within the boundaries of the port. This change was requested to ensure coordination of economic development activities within port districts. Oregon ports play a key role in economic development in the community. Since the statute changed in 2005, the Port Commission routinely receives requests from jurisdictions as they move forward with Enterprise Zone applications and/or boundary changes.

Enterprise Zones are discrete areas of up to 12 or 15 square miles in size that are sponsored by one or more local governments. Various types are found throughout the world. Oregon's version has been in existence since the mid-1980s. Each zone designation lasts up to 11 years. State law permits up to 68 to exist now. They are intended to offer tax and other incentives to induce additional investment and employment by non-retail businesses in areas meeting certain measures of economic hardship. They have proven to be Oregon's key offering in the pursuit of business growth and expansion. Their effectiveness is due to a typically short-term but immediate benefit for the business project's cash flow.

Enterprise Zones provide up to 100 percent property tax abatement on a company's new investment in facilities, equipment and machinery over a three- to five-year period if a job threshold is met (110 percent or more of existing employment over the 12 months preceding the pre-project application). Land or existing machinery or equipment are not tax exempt; therefore, there is no loss of current property tax levies to the Port or other taxing jurisdictions. The primary beneficiaries of Enterprise Zone benefits are manufacturing and other industrially-oriented businesses. Electronic Commerce designations within Enterprise Zones provide a 25-percent Income Tax Credit on new investments in Electronic Commerce up to a maximum of \$2 million. The tax credit must be earned in a year in which the business receives an Enterprise Zone property tax exemption.

CONSENT TO ENTERPRISE ZONE AND ELECTRONIC COMMERCE DESIGNATION
APPLICATION BY THE CITY OF PORTLAND

June 13, 2012

Page 2

The City of Portland is seeking the Port's support and consent in favor of creating the East Portland Enterprise Zone, with an Electronic Commerce designation. The East Portland Enterprise Zone, comprised of industrial, commercial and employment areas, lies generally east of Cesar E. Chavez Boulevard (39th Avenue) to the Portland city limits, an area of approximately nine square miles.

The proposed East Portland Enterprise Zone has a number of vacant sites and vacant or underutilized buildings that are prime for expansion and redevelopment. The City of Portland is requesting Enterprise Zone and Electronic Commerce designations from Business Oregon to help develop this area for industrial and other eligible uses. These designations will provide east Portland businesses with a strong economic development tool to incent new investment and create jobs.

Under the current tax levy, the Port will forgo approximately \$0.0689 per \$1,000 of assessed value until the exemption period ends. If the East Portland Enterprise Zone is authorized, we expect the impact on Port property tax revenue to be relatively small – less than \$200 a year over a five-year period for every \$5 million invested. Upon completion of the five-year exemption period, the property will be fully taxed. There is no impact to the Port based on the Electronic Commerce designation, as this is a tax credit from the state.

Portland currently has one authorized Enterprise Zone located in North-Northeast Portland. The Portland Development Commission is the designated Enterprise Zone manager on behalf of the City of Portland. This Enterprise Zone was re-authorized in 2008 and will expire in 2017. In 2009 alone, Enterprise Zone firms spent an estimated \$60 million in local procurement in Portland and workers averaged wages of \$21.80 per hour (and received additional benefits valued at \$7.35 per hour).

Since 1996, the City of Portland's Enterprise Zone program has leveraged over one billion dollars in private investment and has created and retained over 5,000 full-time, quality jobs. Additionally, newly enrolled Enterprise Zone firms are expected to invest another \$500 million in Enterprise Zone projects in the next three years.

A taxing jurisdiction consultation meeting regarding the proposed East Portland Enterprise Zone was held on June 6, 2012. The Portland Development Commission is scheduled to take action on the proposed Enterprise Zone Electronic Commerce application on June 13, 2012, and the Portland City Council is scheduled to take action on June 14, 2012. In order to move the application forward to Business Oregon for approval by June 15, 2012, the City of Portland is required to have the consent of the Port Commission for this application. The City has requested that the Port Commission provide a resolution consenting to this Enterprise Zone and Electronic Commerce application.

PROPOSED EAST PORTLAND ENTERPRISE ZONE

What is an Enterprise Zone?

The Oregon Enterprise Zone (E-Zone) program is a State of Oregon economic development program that allows industrial and other qualifying firms making substantial new capital investments an exemption of 100% of real property taxes attributable to the new investment(s) for a five-year period. Land or existing machinery or equipment is not tax exempt; therefore, there is no loss of current property tax revenue to local taxing jurisdictions.

Generally speaking, taxes on a new capital investment are around 1.5% of the value of that investment. A \$20 million investment would typically produce a tax liability of around \$300,000 a year. Once the five-year period has ended, the improvements, along with the rest of the property, are fully taxed for the life of the improvements. So, a short-term waiver of local taxes results in a long term return to local taxing jurisdictions.

In exchange for receiving property tax exemption, participating firms are required to meet program requirements set by state statute and the local sponsor. These requirements include a commitment to quality jobs, job retention and a contribution to a workforce training and business development fund. The Portland Development Commission (PDC) is the local sponsor for the E-Zone program and manages the existing Portland E-Zone.

What has the existing Portland E-Zone Program accomplished?

Since 1996, with more than 50 companies participating and 30 firms currently active, the City's E-Zone program in N/NE Portland has leveraged more than \$1 billion in private investments and has created and retained more than 5,000 full-time, quality jobs. In 2009 alone, E-Zone companies purchased \$60 million in materials, supplies and services from other companies in Portland. The positive impact on our local economy is considerable.

Why create a new E-Zone ?

The PDC is proposing to establish another E-Zone focused on east Portland this summer (2012). Based on the success of the existing Portland E-Zone, the City of Portland and PDC view a new E-Zone as a way to support business growth, create jobs and generate other community benefits in east Portland. Businesses and residents in N/NE Portland have benefited from this program over the last 15 years, and we now have the opportunity to extend these benefits to east Portland.

Bruce Allen, Portland Development Commission

STAFF PRESENTATION

After introductions, Keith Witcosky provided the group with an overview of the Enterprise Zone (E-Zone) program and the purpose and focus of an East Portland application:

- Application due to the State – June 15, 2012
- 5-year tax abatement on new investment made by qualifying firms
- Obligations companies must meet in order to receive abatement
- Portland has an existing E-Zone which has 30 companies currently enrolled
- Proposed zone contains industrial, commercial and employment-zoned property predominately east of 39th Avenue
- Multnomah County is supportive of proposed designation

Andy Reed, E-Zone Program Coordinator, explained the obligations of a company receiving the abatement, as outlined in the proposed East Portland E-Zone Policy. Those obligations include employment requirements, local procurement and annual contributions to the Workforce Training and Business Development Fund. Sixty percent of this fund goes to WorkSystems Inc. for job training, and 40% goes to PDC for business development, including microenterprise work.

Bruce Allen, E-Zone Program Manager, added that the state currently has designated approximately 60 E-Zones throughout Oregon. Andy went on to explain that a typical company in the program spreads its investment across 2-4 years. He discussed some past E-Zone investments including SoloPower and Rentrak. The E-Zone program has significant community benefits. In 2009/10, employees of E-Zone companies made, on average, \$30 an hour, including wages and benefits. These companies spent \$60 million in local procurement.

Keith also mentioned that company headquarters are also eligible for the E-Zone program, like Rentrak and Banfield Pet Hospital.

QUESTIONS/DISCUSSION

David Williams - How long does the program last?

- Andy Reed – The designation lasts ten years and a company has to be enrolled before the expiration of the zone. The abatement is for five years. The existing zone in Portland expires in 2017. To extend the designation we would have to apply again with the state. Since the 1990's, 50 companies have enrolled in the program in Portland.
- Keith Witcosky – There are several obligations a company must meet in order to receive the abatement. This tool will help areas within urban renewal areas (URA) that aren't growing on their own like the Gateway URA, and this won't impact the financial projections of the URAs.

Jim Langstrauf – Where are these companies coming from? Are you essentially moving jobs from one area to another?

- Andy Reed – Companies can receive abatement if they move into the E-Zone from more than 60 miles away and increase employment.
- David Williams – Do companies moving from Vancouver qualify?
 - Andy Reed- Yes.

Lise Glancy – Does this boundary overlap urban renewal areas?

- Keith Witcosky – Yes, 10 urban renewal areas overlap this boundary: Airport Way, Gateway, Lents Town Center, Central Eastside, and the six Neighborhood Prosperity Initiative URAs.
- Lise Glancy – What is the impact in terms of paying off URA bonds?
 - Keith Witcosky – None, because these types of investments are not factored into our URA projections at all.

Andy Reed – We are also submitting an application for the one remaining Electronic Commerce (E-Commerce) designation. This designation would apply to the same boundary as the E-Zone and can provide a state income tax credit to qualifying companies.

- Lise Glancy – Do you have a company interested in the E-Commerce program?

- Andy Reed – Yes but the company asked for confidentiality. Similar to the E-Zone program, a \$500,000 investment is seen as the minimum feasible amount.
- Dan Eisenbeis – Does the state track the impact of income taxes?
 - Andy Reed – I am not aware of that, but we can ask the state.

David Williams – Do you have investment projections or estimated foregone revenues?

- Andy Reed – We can provide some estimates, but note that the abatement is only on new investment so there is no impact to current tax revenue, and an investment will only impact certain jurisdictions depending on the location of the investment.

Tim McCabe, Director
Business Oregon
775 Summer Street NE, Suite 200
Salem, OR 97301-1280

Dear Director McCabe,

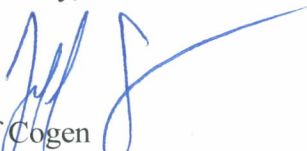

Multnomah County supports the Portland Development Commission's East Portland Enterprise Zone application to the State of Oregon.

Multnomah County views the property tax abatement of this proposed zone as a prudent investment for the purpose of encouraging business development that will enhance the overall economic health of the region. With an Enterprise Zone program that I expect to be up and running quickly, east Portland will benefit from the Portland Development Commission's valuable experience administering the existing program that has served businesses and residents in north and northeast Portland.

East Portland is a place where this type of assistance is much needed and can have a tremendous impact of promoting business growth. Successful economic growth creates valuable employment opportunities for local residents and helps drive significant improvements in the overall community. Further, I am pleased that the Portland Development Commission is seeking an "e-commerce" designation that will help promote the creation of the kinds of jobs in east Portland that will have long-term relevance in a 21st century economy and that can support economic development efforts throughout east County.

I very much appreciate that the Portland Development Commission engaged Multnomah County in the development of this Enterprise Zone Program and worked with Multnomah County in the decision to focus the program on under-served areas in east Portland. I look forward to Multnomah County's continued participation through the zone's technical advisory group and working with partners to maximize the impact of the zone's workforce training and business development funds to support the residents of east Portland and businesses of all size within the community.

Sincerely,

Jeff Cogen
Multnomah County Chair

Subject: Intention to Apply for New Enterprise Zone for East Portland - Public Meeting Invitation

Dear «Greeting»:

This letter is to inform you the Portland Development Commission (PDC), on behalf of the City of Portland, is proposing to submit an application to Business Oregon to create the East Portland Enterprise Zone (E-Zone). This E-Zone will primarily be focused east of Southeast 39th Avenue/Cesar Chavez Boulevard to the eastern boundary of the City of Portland.

The Oregon E-Zone program is a State of Oregon economic development program that allows for property tax exemptions for up to five years on new capital construction in exchange for job creation and other public benefits. Once the 5-year period is over, the improvements, along with the rest of the property, are fully taxed for the life of the improvements. Participating firms are required to meet the program requirements set by state statute and the local sponsor. The PDC is the local sponsor for the Portland E-Zone program.

In the 2012 session, the Oregon Legislature authorized Business Oregon to receive applications for additional E-Zones across the state. PDC is pursuing this opportunity because it provides another tool to increase private sector economic activity and jobs in important areas of the city and county.

As a taxing jurisdiction that levies taxes within the proposed E-Zone boundary, we would like to invite you and/or representatives from your jurisdiction to attend a public meeting to learn more about the proposal and provide comments.

Public Meeting
Wednesday June 6, 2012
12:00 – 1:00 PM
Portland Development Commission
Commission Conference Room, First Floor
222 NW 5th Ave
Portland OR 97209

If you are unable to attend the public meeting, we would be happy to meet with you individually to discuss the application and address any questions you may have. In addition, your district is welcome to submit written comments. Please direct any comments or questions to Andy Reed at 503-823-7053 or ReedA@pdc.us.

Reasons for Seeking an Enterprise Zone

Portland currently has one E-Zone located in North/Northeast Portland. PDC is the designated E-Zone manager on behalf of the City of Portland. It was originally created in the early 1990s. E-Zones are in effect for ten years, and can be subsequently extended through an application to the State. This E-Zone was re-authorized in 2008.

Since 1996, the City's E-Zone has leveraged over one billion dollars in private investments and has created and retained over five thousand full-time, quality jobs. Additionally, newly enrolled E-Zone firms are expected to invest another \$500 million in E-Zone projects in the next 3 years.

E-Zone firms must pay 150% of the minimum wage to the vast majority of their workers, provide financial support to train local workforce and assist local small businesses, and commit to local procurement. In 2009 alone, E-Zone firms spent an estimated \$60,000,000 in local procurement in Portland and workers averaged \$21.80/hr (and received additional benefits valued at \$7.35/hr). E-Zone firms are also required to pay 15% of the value of their abatement in a Community Contributions fund which is used to invest in workforce training and business development.

The E-Zone is a significant economic development tool to incent new investment and create jobs in industrial-based properties in Portland.

It is expected a new E-Zone in East Portland will begin to drive new investment in industrial properties east of 39th Avenue/Cesar Chavez Blvd. and lead to more job opportunities and investment in long-vacant land.

Timing

PDC will submit the E-Zone application to Business Oregon by June 29, 2012. In order to meet this deadline, the application is scheduled for presentation and discussion at the Port of Portland Commission on Wednesday June 13, 2012 and the PDC Board of Commissioners and Portland City Council on Wednesday June 27, 2012; times to be determined.

Notice sent pursuant to OAR 123-650-5000.

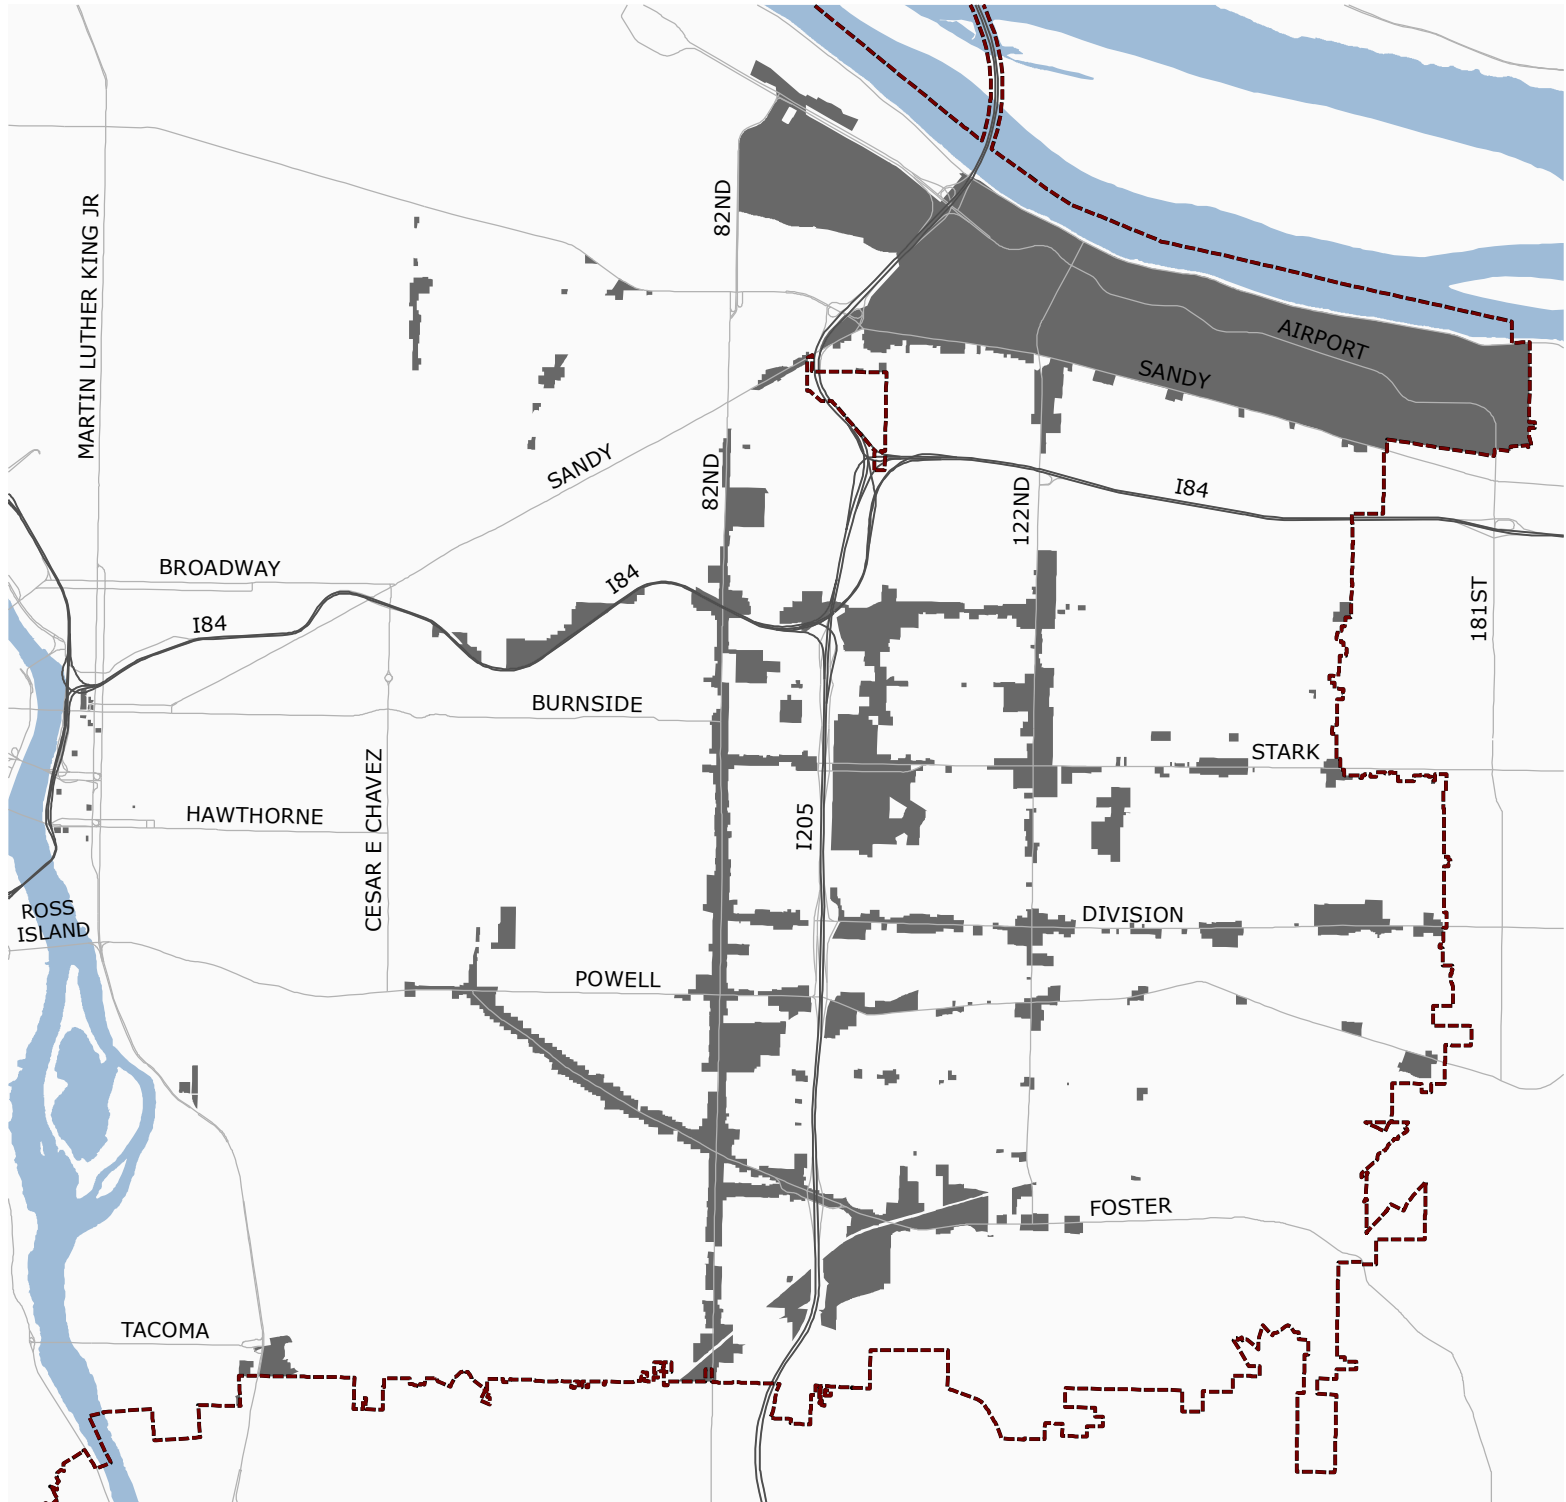

Sincerely,

Morgan Masterman
Policy Coordinator

2. OVERVIEW OF EAST PORTLAND ENTERPRISE ZONE POLICY

2.1. Introduction

The Oregon Enterprise Zone program is a State of Oregon economic development program, as provided by the Act, which allows for property tax exemptions designed to encourage existing and new firms to invest in new capital outlays in certain designated areas. In exchange for receiving the property tax exemptions, participating firms are required to meet certain program requirements as described in the Act and any additional requirements as set by local jurisdictions.

The purpose of the East Portland Enterprise Zone program (“East Portland E-Zone”) is to facilitate investment by predominantly industrial-based businesses in East Portland in order to create or retain quality jobs while maximizing the economic benefits for residents of East Portland who are currently earning at or below 80% Median Family Income (“MFI”).

This E-Zone Policy will act as the over-arching guide for the City’s local East Portland E-Zone requirements and the use and distribution of the Community Contributions collected under the East Portland E-Zone (defined below).

2.2. Primary Goals of the East Portland E-Zone

2.2.1. Attract new industrial investments through expansion or the attraction of operations to East Portland.

2.2.2. Link East Portland residents earning at or below 80% MFI with quality jobs created by participating East Portland E-Zone firms.

2.2.3. Increase local business-to-business procurement opportunities between participating East Portland E-Zone firms and existing firms located within the City of Portland in order to increase local purchasing.

2.2.4. Ensure that the jobs being created meet basic job quality and retention requirements per the E-Zone Policy and State requirements.

2.2.5. Ensure that participating firms are increasing overall employment by at least ten percent (10%) during the first year the firm receives abatement.

2.3. Operating Principles and Guidelines of the East Portland E-Zone

2.3.1. The City and the E-Zone Manager shall operate the East Portland E-Zone in accordance with the Act, the Administrative Rules and this E-Zone Policy.

2.3.2. All participating firms shall comply with all applicable requirements of the Act, the Administrative Rules, and this E-Zone Policy.

- 2.3.3. As a condition of authorization for the property tax abatement granted pursuant to the Act, the Company shall agree to perform the obligations set forth in this Policy and the Written Agreement.
- 2.3.4. The primary tool of the East Portland E-Zone is an exemption of certain property from ad valorem property taxation. The duration of the tax exemption period will be five (5) years.
- 2.3.5. Ensure the East Portland E-Zone supports new investments and aids in establishing new and emerging small businesses without over burdensome regulations.
- 2.3.6. Enhance the Oregon Enterprise Zone program with additional City requirements that create an appropriate balance between achievement of City objectives and property tax exemption benefit to the participating firm while not diminishing the overall Economic Development incentive of the program.
- 2.3.7. Encourage participating firms to hire East Portland residents that are at or below 80% MFI when filling positions.
- 2.3.8. Market and manage the East Portland E-Zone such that it serves as an effective incentive for businesses to invest in East Portland's industrially-zoned areas within the East Portland E-Zone boundary.
- 2.3.9. Manage the East Portland E-Zone in coordination with the E-Zone Advisory Committee to monitor the overall program performance and make programmatic recommendations as needed to the E-Zone manager.
- 2.3.10. Ensure that the Workforce Training and Business Development Fund maximize the public benefit through leveraging funds with other job training programs.
- 2.3.11. The E-Zone Manager will create a Written Agreement that will ensure all aspects of the East Portland E-Zone requirements are met and enforced per the Act and this E-Zone Policy.
- 2.3.12. Ensure that the monitoring and reporting systems provide the E-Zone Manager, the E-Zone Advisory Committee and City Council with the data needed to assess participating firm compliance, program cost-effectiveness and overall success.
- 2.3.13. Ensure that the E-Zone Manager and the E-Zone Advisory Committee examine the program's overall effectiveness and make programmatic recommendations to the PDC and City Council as needed.
- 2.3.14. PDC shall identify a position that will act as the E-Zone Manager, among other duties.
- 2.3.15. An application filing fee will be required at the time a company files an application for authorization with the E-Zone Manager. The amount of the filing fee shall be the greater of \$200 or 0.1 % of the total estimated cost of the firm's proposed investment in qualified

property. Failure of a company to pay the filing fee at the time of submitting the application may result in the denial of the application for authorization. If the application is denied under ORS 285C.140, any payment of a filing fee shall be refunded in full to the company. PDC may establish written guidelines regarding the fee structure and how it is applied.

2.3.16. Ensure that the City and its designated E-Zone Manager timely meet the reporting requirements of the Act.

2.4. This E-Zone Policy is intended to comply with the requirements of the Act (specifically ORS 285C.150(4)) for an adopted policy establishing standards for the imposition of local conditions. This E-Zone Policy also provides guidance from City Council to the E-Zone Manager regarding the provisions in the Act and for additional requirements by E-Zone Sponsors for exemptions of five years' duration. Companies may not qualify for authorization for participation in the East Portland E-Zone if companies do not meet the requirements of the Act and this E-Zone Policy.

3. WRITTEN AGREEMENT

3.1. Each company will enter into a Written Agreement with PDC.

The Written Agreement will describe the additional city requirements consistent with this E-Zone Policy and ORS 250C.160.

3.2. As limited by the administrative rules (123-065-2540), the economic costs of the additional local requirements may not exceed one-third of the tax savings associated with the tax abatement.

3.3. If the Company incurs economic costs associated with the additional local requirements in excess of one-third of the tax savings associated with the tax abatement, then the E-Zone Manager will proportionally reduce the applicable additional local requirements such that the costs associated with the additional local requirements are less than one-third of the tax savings resulting from the property tax abatement as.

3.4. Primary Point of Contact

The Company will designate a primary contact person at the Company who is readily accessible by the PDC during normal hours of operation. The primary contact shall be informed about the nature of the Written Agreement between the PDC and the Company and is prepared to be responsible for representing the Company during Annual Compliance. Because the primary contact is the person the E-Zone Manager contacts for general information requests and invoicing the Company will notify the PDC within 60 days if this person is replaced or changed.

4. EMPLOYMENT LEVEL AND HIRING REQUIREMENTS

4.1. Employment Qualifications

Appendix G

Summary of Local Economic Development History and Activities

The Zone is an important part of the City's Five-Year Economic Development Strategy, adopted by Portland City Council on July 8, 2009. This strategy includes an emphasis on traded sector firms and specific industry clusters, such as advanced manufacturing and software. Many of these firms are located within the Zone boundary.

Additionally, on May 25, 2011 Portland City Council adopted the Neighborhood Economic Development Strategy. This strategy is intended to foster economic opportunity and neighborhood vitality throughout the City of Portland. An important outcome from this strategy is the Neighborhood Prosperity Initiative (NPI). The NPI uses multiple levers, including small urban renewal areas, to bring resources that strengthen the economic competitiveness of business districts in east Portland. Commercially-zoned property within all six NPI areas is included in this Zone boundary.

In addition to the NPI, the proposed Zone overlaps portions of four existing urban renewal areas: Airport Way, Central Eastside, Gateway Regional Center and Lents Town Center. Leveraging urban renewal resources with the E-Zone program should be very advantageous to the community. By providing another tool, the area will have more resources to encourage new development and job growth.

Summary of Local Incentives for Enterprise Zone Businesses

The City of Portland has a variety of local incentives that will be made available to firms, as well as other businesses and residents in the Zone. The Zone-tailored Workforce Training Fund, which is capitalized through the participating Zone companies, will allow businesses to collaborate and enhance resources by leveraging local funds to create specialized training programs to fit Zone companies' needs for employment. PDC's administrative guidelines for use of the Workforce Training Fund ensure that these funds are available to provide the needed training to companies regardless of their size or amount of their contributions. The Business Development Fund, which is also capitalized through the participating Zone companies, is intended to enhance local entrepreneurship by stimulating employment opportunities through growth and development of local firms and community-based businesses. Criteria for use of the Business Development Fund is detailed in the adopted E-Zone Policy (Appendix F) and is administered by the PDC, with input from the E-Zone Advisory Committee.

In addition to the Workforce Training and Business Development Funds, PDC has numerous incentives available for qualifying firms, including participating Zone companies (see Incentive Summary included in this appendix). These include direct loans and grants for new construction, renovation and tenant improvements; working capital loans for smaller businesses and start-ups; and lean production consulting assistance through the Oregon Manufacturing Extension Partnership. In some cases, PDC and/or the City can incent new private investment by providing public improvements (e.g. street upgrades; utility service; traffic controls) that are needed to allow new development to proceed.

PDC also offers site identification assistance and site tours. This involves PDC staff working with the firm to identify sites, existing buildings and/or developers in order to deliver the space needs of a firm, as well as site location and permitting assistance, which in some cases shortens the time it takes for a firm to receive necessary permits.

Portland Development Commission (PDC)

City of Portland Incentive Summary

OVERVIEW

The PDC business financial assistance program has two major objectives: job creation/retention and wealth creation. We achieve these objectives through gap financing, meeting the financial need where 'gaps' exist by leveraging PDC resources with private capital. Portland companies able to obtain some financing from private sources or lenders, but not enough to achieve their objectives, are potential candidates for PDC business finance tools.

Each program has unique service areas, terms and job creation requirements. We can also provide information about state and federal finance programs and connect you to the Small Business Administration, New Markets Tax Credits and other loan programs. In addition, the City of Portland will assist with fast-tracking the necessary entitlements for development, including land use reviews and building permits.

❑ POTENTIAL MANUFACTURING FACILITY INCENTIVES

Incentives within the Portland Enterprise Zone

If your project locates within the Portland Enterprise Zone boundary in N/NE Portland, they could qualify for a 5-year property tax abatement. The Oregon Enterprise Zone program is a State of Oregon economic development program that allows for property tax exemptions for up to five years. In exchange for receiving property tax exemption, participating firms are required to meet the program requirements set by the state statute and the local sponsor. The Portland Development Commission is the local sponsor for the Portland Enterprise Zone program ("Portland E-Zone").

In order to qualify a firm must be making new investment in construction or equipment to leased or owned property within the E-Zone boundary and must be creating new or additional employment. Once an authorized company enters into the program it will receive full tax abatement on all qualified property for five years, consecutively, as long as annual compliance with program requirements is met.

❑ INCENTIVES FOR LOCATION IN PORTLAND URBAN RENEWAL AREAS

Physical Improvements and Property Acquisition Loan

Equipment Purchase and Working Capital Loan

Multi-purpose Loan for Small Community Economic Development

PDC can offer low interest loans for physical improvements and property acquisition, equipment purchase, working capital, and small community economic development projects. In general, loans are priced to encourage private investment; the higher the private investment, the lower the interest rate. The funds are not available for retail or speculative development. Funding for this program is available primarily through tax increment and therefore is tied to the costs associated with redevelopment and physical

improvements of real estate. Loans for physical improvement and property acquisition are intended to attract more investment into Portland businesses, and increase the number of jobs created for every dollar of public investment.

The Equipment Purchase and Working Capital Loan is particularly designed to support the creation and retention of quality jobs through financial assistance to industry cluster companies – activewear, advanced manufacturing, clean technology and software. The program also supports high-growth businesses.

Financing for small community economic development projects is designed to support small and MWESB businesses, and build community wealth through local ownership. The multi-purpose loan is for the acquisition of owner-occupied commercial property, equipment purchase, and working capital based on an identified financial gap.

❑ WORKFORCE ASSISTANCE

Qualified projects will have a single liaison at Worksystems to help identify and implement a recruitment, training and resource package customized to meet your specific needs.

Workforce Training Assistance

There are numerous post-secondary training programs in the region. University of Portland, Oregon Institute of Technology, Washington State University – Vancouver, George Fox University, Oregon Graduate Institute/OHSU and Portland State University all offer bachelor-level engineering and computer science degrees while several also offer graduate degrees.

Moreover WorkSource has resources that can support on-the-job training for new employees, with almost all the skills needed for the job, to learn the proprietary or additional skills required to be a valued employee. Existing worker training grants can be available from Worksystems to support customized training through an outside vendor (eg community college) or internally.

❑ POTENTIAL CITY WIDE ASSISTANCE FROM PDC*

Appendix J

Summary of Relevant Strategic Planning

In addition to the local economic development strategies (Section II.2 of this application) that guide investments and drive economic development in the region, the Zone will leverage additional resources through a variety of efforts including urban renewal areas, the East Portland Action Plan, and the Portland Plan.

As mentioned above, the Zone boundary includes industrial, commercial and employment zoned property within ten existing Urban Renewal Areas (URAs): Airport Way, Gateway Regional Center, Lents Town Center, Central Eastside and the six recently created Neighborhood Prosperity Initiative URAs. These districts, particularly Airport Way URA, have numerous sites providing opportunities for investment. Each URA is guided by an adopted Urban Renewal Plan which outlines out the URA's goals and priorities. Any Zone investments in URAs will be consistent with those Plans.

A majority of the Zone also overlaps the East Portland Action Plan (EPAP) area. The goal of the EPAP is to improve the quality of life, help foster strong community connections, increase the area's regional significance and improve equity for East Portland residents. EPAP economic development and workforce training goals seek to:

- Identify family-wage target industries and develop a plan to pursue such industries;
- Promote key opportunity sites for economic development;
- Promote and support small and independent Portland-based and -owned businesses; and
- Increase and promote workforce training and employment opportunities for East Portland residents.

Lastly, on April 25, 2012, the Portland City Council adopted the Portland Plan, setting forth short and long-range goals for the city. It includes a framework for equity and focuses on three integrated strategies: Thriving Educated Youth, Economic Prosperity and Affordability, and a Healthy Connected City. The Portland Plan sets key directions and goals for the city. The Plan recognizes that quality public services are essential to achieving equity, a healthy economy and community affordability. The plan's three strategies and equity framework outline a coordinated approach to providing services that meet multiple goals with limited funding. In a time of diminished resources, an emphasis on multi-objective actions is not in competition with basic services; it is a strategy to ensure effective service delivery.

Appendix K

Summary of Management Plan for the Enterprise Zone

In addition to a Zone Manager who will oversee the program on behalf of the City of Portland, a Zone Coordinator will work to monitor the benefits the program brings to the community, the effectiveness of the program incentives, and the compliance requirements placed on companies.

The Zone Coordinator will work closely with the Multnomah County Tax Assessor's office, the State of Oregon (Business Oregon), and WorkSource Oregon to ensure the program operates efficiently and effectively. Standard operating processes will be posted on the Zone website to allow public partners, and Zone companies and others to quickly access information on program administration. Applicable statutes, rules and forms will be accessible on this website, and program requirements and incentives will be listed and defined for easy access.

Staff will continue to involve the community in program evaluation and in the development of any new policies and procedures that may be considered. Staff will also provide performance updates at PDC Board meetings over the course of the year.

Summary of Local Coordination

The Zone Coordinator will work with the County Economic Development Manager, the Assessor's Office, the City of Portland, WSI and the Port of Portland as needs arise related to company enrollment and administration of the Zone.

PDC is in frequent contact with the County Assessor's Office and maintains a good working relationship with their staff. Specifically, PDC and County staff discuss company applications for enrollment in the Zone and compliance requirements and concerns after enrollment occurs. PDC and County staff also discuss the interpretation of Zone state statutes and administrative rules related to enrollment and ongoing exemption claims, and if needed, will coordinate with counsel from both organizations to clarify interpretations.

Other partners will be consulted at various points as necessary depending on individual Zone company interests, plans, and concerns. Additionally, PDC will work directly with WorkSource Oregon and WSI to coordinate recruitment and training services for participating companies.

Summary of Public Awareness or Support for Enterprise Zone

In addition to the taxing jurisdiction meeting described in Appendix B, PDC held an open house in east Portland on June 7, 2012. More than 20 people attended. Dear Director McCabe,

Multnomah County supports the Portland Development Commission's East Portland Enterprise Zone application to the State of Oregon.

Multnomah County views the property tax abatement of this proposed zone as a prudent investment for the purpose of encouraging business development that will enhance the overall economic health of the region. With an Enterprise Zone program that I expect to be up and running quickly, east Portland will benefit from the Portland Development Commission's valuable experience administering the existing program that has served businesses and residents in north and northeast Portland.

East Portland is a place where this type of assistance is much needed and can have a tremendous impact of promoting business growth. Successful economic growth creates valuable employment opportunities for local residents and helps drive significant improvements in the overall community. Further, I am pleased that the Portland Development Commission is seeking an "e-commerce" designation that will help promote the creation of the kinds of jobs in east Portland that will have long-term relevance in a 21st century economy and that can support economic development efforts throughout east County.

I very much appreciate that the Portland Development Commission engaged Multnomah County in the development of this Enterprise Zone Program and worked with Multnomah County in the decision to focus the program on under-served areas in east Portland. I look forward to Multnomah County's continued participation through the zone's technical advisory group and working with partners to maximize the impact of the zone's workforce training and business development funds to support the residents of east Portland and businesses of all size within the community.

Sincerely,

Jeff Cogen

Subject: Enterprise Zone and Electronic Commerce Designations for East Portland

Dear Mr. McCabe:

On behalf of the Board of Directors and statewide membership of the Software Association of Oregon, I am writing to convey the SAO's strong support for the proposed East Portland Enterprise Zone (E-Zone) and Electronic Commerce (E-Commerce) overlay.

As Oregon and the Portland Metro region look for solutions to our current economic and employment issues, creation of this E-Zone in East Portland, with the combined E-Commerce overlay, will provide a strong and effective system of business development programs and opportunities that will result in long-term investment and job growth for this area of the city.

We applaud the broad economic development benefits and opportunities the E-Zone Programs will offer to the East Portland business community. Businesses will find that this zone offers development and investment benefits through a combination of tax credits and exemptions, while the local community will benefit from requirements to increase and maintain hiring within the E-Zone, creating a path to long-term, sustainable development for the community as a whole.

As the trade association for Oregon's high tech industry, we are particularly pleased to support the inclusion of an Electronic Commerce overlay. We know that our industry has a record of providing historically higher than average wages, consistent job creation, and business growth in Oregon, thereby substantially increasing economic and community development benefits to the entire area.

It is worth noting that many of these jobs and opportunities created by growth in software and technology are not limited to software and technology companies. To be sure, software and technology-related jobs are becoming ubiquitous in a variety of industries, ranging from manufacturing, to healthcare, to athletic and outdoor gear, and many of these non-technology companies will find opportunity in the newly created E-Zone.

The Software Association of Oregon fully recognizes the value of creating and promoting opportunities for business investment and job growth in our state. Our mission to foster and promote Oregon's technology industry is often best served by supporting economic development initiatives and proposals like this one which are designed to enhance business expansion, retention, and recruitment efforts across multiple industries.

Subject: Enterprise Zone and Electronic Commerce Designations for East Portland

Dear Mr. McCabe:

Greater Portland Inc. is supportive of the City of Portland's East Portland Enterprise Zone and Electronic Commerce applications to the State of Oregon. The Enterprise Zone (E-Zone) Program is an effective mechanism that encourages business development opportunities in the region. Together with the Electronic Commerce (E-Commerce) designation, the City will have access to proven tools to promote business investment and job growth in our area.

As the region's public/private economic development partnership, Greater Portland Inc. is focused on collaboratively driving quality economic expansion and job creation. The E-Zone Program with an E-Commerce overlay will advance our coordinated regional economic development strategy to promote business retention, expansion and targeted recruitment. We believe the associated return on these tax abatements will lead to job growth with local investment to provide long term economic stability to the entire region.

Greater Portland Inc. views this proposal as a way to support business growth, create jobs and generate other community benefits in east Portland. We appreciate the opportunity to support these valuable incentives.

Sincerely,

Dear Tim,

The Columbia Corridor Association understands that PDC, the Port of Portland and the Portland City Council will be considering establishing a new East Portland Enterprise Zone (E-Zone), along with an Electronic-Commerce (E-Commerce) overlay. This new Zone would include all of the industrially-zoned property east of 39th Avenue (Cesar Chavez Blvd.), much of which is also in the Columbia Corridor.

We strongly support this proposal. The Airport Way district, in particular, has many properties that would benefit from having the E-Zone incentives in place. As we creep out of the recession, many companies are debating whether to sit tight or make new capital investments which would position them well during recovery. The E-Zone program offers them an excellent incentive to do the latter. Additionally, the E-Commerce overlay could also provide the difference in some companies staying and expanding their facilities in Portland, or leaving for greener pastures. This was the case a year or two ago when we were able to retain Rentrak, along with their 230 employees, here in Portland due, in large part, to the E-Zone/E-Commerce incentives.

Providing incentives to support our existing and prospective businesses keeps our region strong. It helps businesses feel more confident to expand during recovery.

Therefore, we support PDC, the Port and the City Council in the establishment of the Enterprise Zone and E-Commerce programs as proposed.

Sincerely,

Corky Collier

Beam Development is highly supportive of the City of Portland's East Portland Enterprise Zone and Electronic Commerce applications to the State of Oregon. The Enterprise Zone (E-Zone) Program is an effective mechanism that encourages business development opportunities in the region. Together with the Electronic Commerce (E-Commerce) designation, the City will have access to proven tools to promote business investment and job growth in our area.

As a developer of creative office space in the Central Eastside of Portland, Beam Development, is focused on working closely with high-growth early stage companies that are creating quality jobs and are driving economic growth. The E-Zone Program with an E-Commerce overlay will provide our growing tenants with an important resource that will allow them to realize their businesses' full potential with more productive workspace and more efficient infrastructure. These benefits are in direct alignment with the regional economic development strategy to promote business retention, expansion and targeted recruitment. We believe the associated return on these tax abatements will lead to immediate job growth with local investment to provide long term economic stability to the entire region.

Beam Development views this proposal as a way to support business growth, create jobs and generate other community benefits. We look forward to educating our tenants on the benefits of this program. We appreciate the opportunity to support these valuable incentives.

Subject: Enterprise Zone and Electronic Commerce Designations for East Portland

Dear Director McCabe:

As Co-Chairs of the Gateway Regional Center Program Advisory Committee (PAC), we strongly support the City of Portland's East Portland Enterprise Zone and Electronic Commerce applications to the State of Oregon. The Enterprise Zone (E-Zone) Program is an effective mechanism that encourages business development opportunities in the city. Together with the Electronic Commerce (E-Commerce) designation, the City will have access to proven tools to promote business investment and job growth throughout east Portland. We feel that the Gateway area is particularly well-poised to take advantage of these designations, as the district enjoys excellent freeway access, proximity to Portland International Airport, and flexible zoning that encourages commercial uses.

By providing incentives to encourage existing or new companies to undertake capital investments and increase employment within east Portland, we are directly impacting the outcomes of the City's Neighborhood Economic Development Strategy, the East Portland Action Plan and the recently adopted Portland Plan. Further, the Workforce Training and Business Development Funds from the program will support the ongoing needs of the Gateway Regional Center and surrounding areas.

The Gateway PAC appreciates being involved in the development of this new enterprise zone and urges the State to approve this application.

Dear Director McCabe:

As chair of the Lents Town Center Urban Renewal Advisory Committee (URAC), I strongly support the City of Portland's East Portland Enterprise Zone and Electronic Commerce applications to the State of Oregon. The Enterprise Zone (E-Zone) Program is an effective mechanism that encourages business development opportunities in the city. Together with the Electronic Commerce (E-Commerce) designation, the City will have access to proven tools to promote business investment and job growth throughout east Portland, including the Foster Corridor, where we have many underutilized employment lands.

We appreciate being involved in the development of this new enterprise zone and urge the State to approve this application.

Subject: Application for Designation of the East Portland Enterprise Zone

Dear Mr. McCabe:

We are highly supportive of the proposal to establish the East Portland Enterprise Zone. With this Zone in place, including our business location and other industrial business locations in our general vicinity, it will give the City of Portland a new tool to promote business investment and job growth in our area. Additionally, the new Portland-Milwaukie light rail transit line will provide transportation for workers traveling into the industrial area. As our business expands, having both the E-Zone and the new TriMet line will be advantageous.

PECO is considering significant investments in our holdings in the near future involving new capital improvements of around \$4 million. The benefits of potentially allowing a temporary abatement of the property taxes could provide an attractive incentive to proceed with the project and, possibly even increase our investment. These improvements would allow us to increase our workforce – potentially more than 30 personnel within the next two years - and take on more contracts in the future.

Please feel free to contact me if there you have any questions.

Sincerely,
