Prosper Portland Annual Urban Renewal Report Covering Fiscal Years 2021-22 and 2022-23

## **INTRODUCTION**

The following Prosper Portland Annual Tax Increment Financing Report (the "Report") includes a summary statement which reflects actual financial information for the preceding fiscal year and the current budget for each Tax Increment Finance (TIF) District. The Report includes an analysis of the financial impact on tax collections for the overlapping governmental units within the districts. The information provided in the Report complies with Oregon Revised Statutes ("ORS") 457.460 reporting requirements.

## **CITY OF PORTLAND TAX INCREMENT FINANCING**

Prosper Portland is the economic development and redevelopment agency of the City of Portland, Oregon. Created by Portland voters in 1958, Prosper Portland's mission is to create economic growth and opportunity for Portland.

Prosper Portland is governed by a five-member Board of Commissioners (Board) appointed by the Mayor and approved by the City Council. The Board is authorized by Portland City Charter to administer the business activities of the agency. Prosper Portland has been a driving force in Portland's vibrancy and livability. As Portland's urban renewal and economic development agency, Prosper Portland uses tax increment financing (TIF) to invest in business growth, catalytic projects, and an ecosystem that nurtures small businesses, entrepreneurs, and innovators alike. As such, the term tax increment financing or TIF district, as used throughout this document, is equivalent to Urban Renewal Area as defined by ORS 457.010. Tax Increment District is used in lieu of the term Urban Renewal Area to emphasize the use of tax increment as a financial tool that funds programs key to Prosper Portland's Strategic Plan including, but not limited to, the development of affordable commercial space, lending programs to support long-term property owners, and Prosperity Investment Program grants.

Prosper Portland's Strategic Plan focuses the agency's efforts around five goals:

- Create healthy, complete neighborhoods throughout Portland
- Improve access to high quality employment for Portland residents
- Foster wealth creation within communities of color and low-income neighborhoods.
- Form 21<sup>st</sup> century civic networks, institutions, and partnerships.
- Operate an equitable, innovative, and financially sustainable agency

Prosper Portland also provides a portion of the resources generated by TIF to the City of Portland (City) Housing Bureau in accordance with the City's TIF Housing Set-Aside Policy. The policy was originally adopted in 2006 with the set aside goal of 30 percent of TIF debt proceeds used for affordable housing projects. The policy was amended by City Council in October 2015 to increase the amount to 45 percent of new TIF debt proceeds across active TIF districts. The percent differs by district with the lowest percent in River District at 31% and the highest percent in Interstate at 70%. Since the policy update in 2015, \$240 million has been spent to affordable housing. Based on the policy updates, it's forecast \$361 million will be spent or allocated on affordable housing between 2015 and 2028 and a total of \$917 million between the original policy and estimated disbursement of final proceeds for all districts including the newly established Cully TIF District. The table below illustrates the amounts spent or allocated by district and the percent by district.

# Affordable Housing Set-Aside (in millions)

## Housing Set Aside Expenditures Since 2015 Policy Update

Status of Districts	Districts	-	Expenditures Y 2022-23	Expen	ipated ditures Y 2027-28		Updated* Target

	Total**	\$259	41%	\$361	46%	\$917	45%

\*Updated policy target shown for districts that are new (Cully), increased maximum indebtedness (Interstate, Gateway), or due to agreement to transfer Set Aside funding (from South Park Blocks to River District).

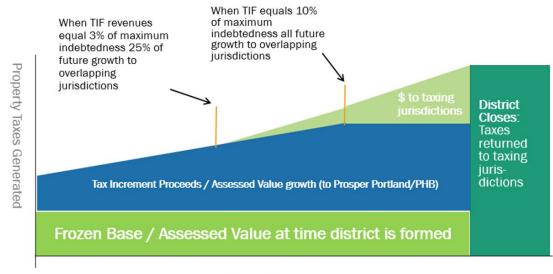

\*\*Total does not include districts closed before 2015 (amount based on pre-2015 allocation)

## HOW TAX INCREMENT FINANCING WORKS

ORS 457 requires that TIF be used to pay debt service on bonds and notes issued to fund projects in TIF districts. The City of Portland collects taxes (Tax Increment Revenue) from TIF districts to make debt service payments on long-term TIF bonds, lines of credit, other interim financing, and short-term TIF bonds (known as "du jour" bonds). Prosper Portland receives the net proceeds of these debt obligations, after issuance costs and required reserves, to use on eligible projects and programs within designated TIF districts.

The City issues all TIF long-term bonds, tax increment-secured lines of credit, and short-term financing per City Charter. The City maintains separate debt service funds for each TIF district.

#### **Flow of Tax Increment**

Time (Years)

All tax increment revenue is placed by the City's Debt Manager into restricted debt funds at the City of Portland. Resources in these funds first pay off annual debt service requirements for any outstanding long-term bonds. Remaining increment not required for long-term bonds is issued as short-term debt and transferred to Prosper Portland to fund projects and requirements within the TIF district.

In Portland, each TIF district has a plan which provides information on the area including the legal boundaries, goals and objectives, project activities, and expiration dates. A report for each TIF district plan provides more details on the condition of the area, maximum indebtedness, and fiscal impacts. Key facts about each TIF district and its capacity for debt issuance are summarized in the following table:

TIF District	Maximum	Indebtedness	Indebtedness	Projected	Projected	Last Date to	Repayment
	Indebtedness	Issued as of	Remaining as of	Indebtedness	Indebtedness	Issue Debt	Complete

#### Prosper Portland Urban Renewal Area Statistics for Active TIF Districts as of December 31, 2022 (in millions):

A TIF district's maximum indebtedness represents the principal amount of indebtedness that may be issued for that area and does not include debt service or refinancing. Maximum indebtedness limits are based on good faith estimates of project costs, including inflation, that are planned in each urban renewal area, and often based on the projected financial capacity of the district within a certain period of time.

The following section presents an analysis of the impact, if any, of carrying out the TIF district plan on the tax collections for the preceding year for all taxing districts included (ORS 457.430).

## TAX INCREMENT FINANCING TAXES IMPOSED

By incurring debt to pay for public improvements within a TIF district, it is expected that property values will increase due to investments that would not otherwise occur. This new value is called "increment" or "excess value." Growth in increment also comes from the increase in taxable assessed value from existing properties that grow at a maximum of three percent per year (as long as they don't exceed the properties' market value). The property taxes from this increase in value go to the urban renewal agency as revenue and are used to first pay off any outstanding debts. Any residual revenue amounts after the debt has been repaid are then reinvested into the district for additional public improvements, thus stimulating the "renewal" process. Revenue generated in this manner is referred to as "tax increment financing" or "divide-the-taxes." If there is no increase in assessed value, the urban renewal agency does not collect any revenue. Local taxing districts, such as the county, city, school district, fire district and others, continue to receive the property taxes from the assessed value the district had before the plan area was formed. This value is called the "frozen base."

Historically, a taxing district's operating property tax revenue from within a TIF district could not grow due to the "frozen base" and the permanent rate used to determine a taxing district's operating revenue. However, changes to state law in 2010 introduced revenue sharing, providing the potential for operating tax revenue to grow if tax increment reached certain limits. For fixed dollar local option levies and bonded debt levies there is no impact on the taxing district since the tax rate will be increased to raise the same amount of money over the total value available to taxing district excluding increment. Once the plan area's debt is paid off and the plan area is dissolved, taxing districts start receiving property taxes from the excess value.

Prosper Portland has three remaining "existing plans" (districts) that have been established as Option 3 Plans. In Option 3 Plans, the divide-the-tax collections are frozen at an amount less than the total available tax increment available in the district. Any incremental taxes above the frozen amount goes to local jurisdictions instead of the tax increment district ("excess value unused"). To satisfy any debt service requirements of a district that exceed the frozen divide-the tax collections, the district can receive a special levy. Oregon Convention Center, Airport Way, Downtown Waterfront, and South Park Blocks TIF Districts are Option 3 Plans that have frozen divide-the-tax collections that are supplemented by a citywide special levy.

The post-Measure 50 TIF districts – Gateway Regional Center, Interstate Corridor, Lents Town Center, North Macadam – receive urban renewal taxes under the divide-the-taxes calculations.

House Bill (HB) 3056, effective January 1, 2010, made several substantive changes to how urban renewal operates in Oregon for new and/or significantly amended districts. The bill represented months of successful negotiations among a coalition of taxing districts which included the City of Portland. The bill provides caps on urban renewal indebtedness for new plans based on the size of a district's frozen base; sharing of revenue between urban renewal districts and overlapping districts when certain time-based and performance-based criteria are met; and provides for certain limits on plan amendments.

Over the last five years, several districts have undergone significant amendments to maximum indebtedness or acreage including River District, Central Eastside and North Macadam. Most recently, the Gateway TIF district was amended to remove the last date to issue debt. Also, Interstate Corridor TIF district's maximum indebtedness was increased by \$67 million in January 2021.

## **EXCESS VALUE UNUSED**

For FY 2021-22, the total taxes imposed for Prosper Portland were \$152 million. This is a decrease of 19.0% from \$188 million imposed in FY 2020-21. Of this total amount, \$138 million came from division of tax calculations and \$14 million from the special levy.

The total amount of incremental value not used for implementing TIF district plans, and related indebtedness is defined as excess value unused. This amount is determined on the value unused in Option 3 districts, the amount returned via revenue sharing as a result of HB 3056, or otherwise not required for the repayment of indebtedness. For FY 2021-22, Prosper Portland did not use \$5.9 billion in excess value resulting in approximately \$128.1 million in additional property tax revenue for schools, Multnomah County, regional districts, and the City of Portland. Since FY 1998-99, about \$65.2 billion in excess value has been returned to taxing districts.

## **PROSPER PORTLAND'S TAX INCREMENT DISTRICTS**

Currently Prosper Portland has 17 TIF districts with active urban renewal plans. As of June 30, 2022, Airport Way, River District, 42nd Avenue, Cully, Division-Midway, Parkrose, and Rosewood have repaid all indebtedness. City Council voted to approve the new Cully TIF District in December 2022. The initial tax increment revenue will occur in FY 2023-24 and therefore be reported in subsequent annual reports.

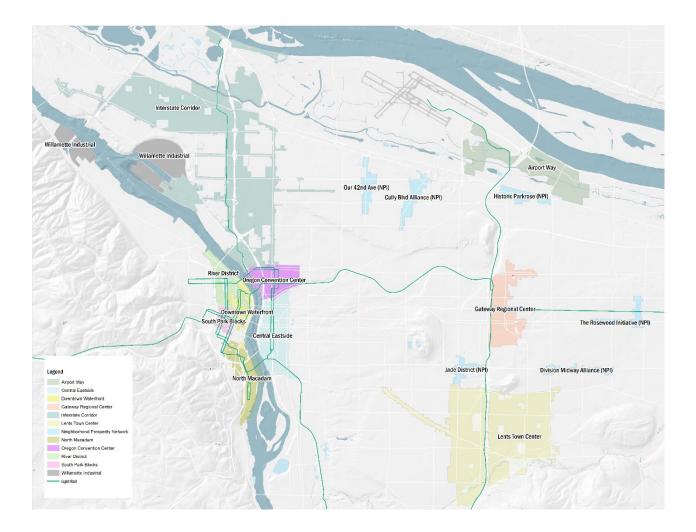

Airport Way **Central Eastside Convention Center Downtown Waterfront Gateway Regional** Interstate Corridor Lents Town Center North Macadam **River District** South Parks Block Willamette Industrial **Neighborhood Prosperity Districts** 42<sup>nd</sup> Avenue 82<sup>nd</sup> Avenue (Jade District) Cully **Division-Midway** Parkrose Rosewood

The section that follows presents the following information:

- The City TIF District Map
- A brief description of each TIF district
- A map of each TIF district
- TIF district Indebtedness statistics
- The amount of money received during the preceding fiscal year from indebtedness incurred
- The purposes and amounts for which any monies received and from indebtedness incurred were expended during the preceding fiscal year

- An estimate of the money to be received during the current fiscal year and from indebtedness incurred
- A budget setting forth the purposes and estimated amounts for which the monies which have been received and from indebtedness incurred to be expended during the current fiscal year

#### **Citywide TIF District Map**

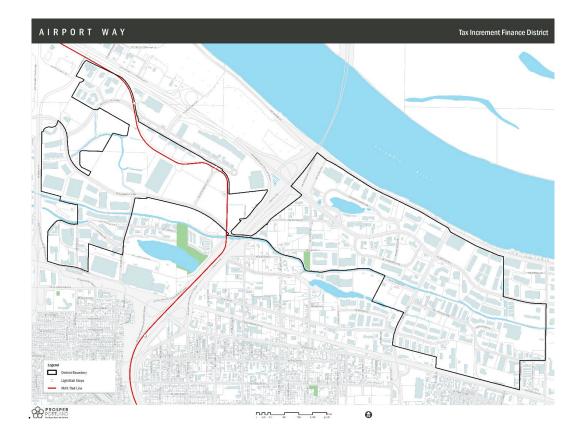

Note: The Cully Tax Increment District was approved by Council in FY 2022-23. First tax increment collections will occur and be reported in FY 2023-24.

#### **Airport Way TIF District**

The Airport Way TIF district was formed in 1986. Unique to Airport Way is its absence of residential zoning and its proximity to major transportation infrastructure, including Portland International Airport. At 885 acres, the Airport Way TIF District is the City's third largest urban renewal district. Total acreage was 2,276 as of June 2009 but was reduced to 1,841 acres through a plan amendment which became effective in March 2010. The district was further reduced through a final plan amendment in 2015 to 885 acres. Its maximum indebtedness of \$72.6 million has been reached and there is no capacity to issue additional debt. The Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$4.0 million in planned expenditures.

The Urban Renewal Plan and the Airport Way Development Plan identified several objectives including: stimulating private investment; growing the base of industrial / manufacturing businesses; and constructing and improving infrastructure systems, such as roads and utilities. One of the TIF district's major outcomes is Cascade Station, a regional destination with stores, restaurants, offices and educational facilities reflecting more than \$500 million in redevelopment investment. Since formation, the TIF district has experienced tremendous growth with the addition of more than 12 million square feet and \$1 billion in new commercial space, including recent projects like Station Hospitality and Cook Security. Today, the primary activities in Airport Way focus on job growth via: 1) the sale and redevelopment of the remaining 26 acres of Prosper Portland-owned development rights at Cascade Station; and 2) providing financial assistance to businesses for expansion or remodeling through Prosper Portland's lending programs and the City's Enterprise Zone program.

#### **Central Eastside TIF District**

The Central Eastside TIF district was established in 1986 and its last date to issue debt is June 2023. Total area is 709 acres. The district reached maximum indebtedness of \$126 million in FY 2021-22. This reflects amendments to the TIF district approved by Portland City Council in March 2015 that increased the URA area by 16 acres; extended the last date to issue debt by five years; and increased maximum indebtedness by 20 percent. The geography brought into the district as a result of the amendment predominantly covered the area called the Clinton Triangle, which is made up of City and privately-owned land adjacent to the Portland-Milwaukie Light Rail Alignment's Clinton Station. The Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$94.3 million in planned expenditures. Since 2015, \$3.6 million has been spent on affordable housing and another \$6.3 million is planned through 2025.

Future investment will focus on supporting employment and job density growth at strategic sites in the district - particularly at the properties along SE Water that Prosper Portland acquired from the Oregon Department of Transportation and in support of the Oregon Museum of Science and Industry master plan. Projects include growing the CES Industrial District to increase job density, supporting industrial businesses within the district, and providing affordable housing opportunities with the Central City 2035's rezoning of key sites. The District's completed improvements include the Eastbank Esplanade, streetcar loop, and the Burnside / Couch couplet as well as redevelopment of the Burnside Bridgehead support future economic development efforts.

#### **Oregon Convention Center TIF District**

The Oregon Convention Center TIF district (OCC) was established in 1989 to meet economic development goals in the Lloyd District. The boundary was amended in 1993, in response to the adoption of the Albina Community Plan to include NE Martin Luther King, Jr. Boulevard from Russell Street to Rosa Parks Way. The boundary was amended again in August 2011 to remove approximately 185 acres north of Broadway/Schuyler. This acreage was subsequently added to the Interstate Corridor TIF district. The OCC's last date to issue debt was June 2013. Total acreage is 410 (reduced from 595 in August 2011). Its maximum indebtedness of \$167.5 million has been reached and there is no capacity to issue additional debt. The Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$29.3 million in planned expenditures, most of which is property management expenditures being funded by property income as all TIF funds have been expended in the district. Since 2015, \$11.6 million has been spent on affordable housing. No additional expenditures are allocated to the Housing Set Aside since this closeout district has reached the policy's target.

The goals of the OCC district are to assist the community in achieving its vision as defined by The Lloyd District Development Strategy and associated neighborhood plans. Investments focused on achieving the district's early goal for a convention center hotel to support the economic success of the Oregon Convention Center. Final TIF proceeds were invested in construction of the Convention Center Hotel Garage tied to the hotel development and construction of the Earl A. Blumenauer pedestrian bridge that was completed in 2022. Future redevelopment is focused on improvements to Inn at the Convention Center and other assets within the district.

#### **Downtown Waterfront TIF District**

The Downtown Waterfront TIF district was established in 1974 and its last date to issue debt was April 2008. Total acreage was 279 as of June 2008 but was reduced to 233 acres through a plan amendment which became effective in July 2008. Its maximum indebtedness of \$165.0 million has been reached and there is no capacity to issue additional debt. The Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$38.4 million in planned expenditures. Since 2015, \$2 million has been spent on affordable housing. No additional expenditures are allocated to the Housing Set Aside since this closeout district has reached the policy's target.

Priorities for the remaining resources will be investment in the implementation of the Old Town Action Plan which includes redevelopment of key sites to further community development efforts and acknowledge the area's culture and history, business and entrepreneurship growth, and district parking and seismic retrofits to support the renovation of the district's historic buildings.

#### **Gateway Regional Center TIF District**

The Gateway TIF district was formed in 2001 with a goal to spur the revitalization of the Gateway Regional Center as envisioned in the Metro 2040 Plan. The TIF district comprises 659 acres, with a maximum indebtedness of \$164.2 million of which \$73.0 million has been issued through December 31, 2021. Bonds were issued to support District projects in 2022 and the Plan was amended to remove the last date to issue debt. The Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$51.4 million in planned expenditures. Since 2015, \$8.4 million has been spent on affordable housing. An additional \$15.1 million in affordable housing expenditures are forecast through 2028.

The primary goals of the district are job creation, business development, and transportation improvements. Investments have been guided by the vision established by the Gateway Action Plan, which was adopted by the Board in 2016. The Gateway Action Plan created a framework that focuses investments and builds partnerships with community, public and private partners to deliver on community goals. In conformance with the Gateway Action Plan, investments have been focused in three key areas: along the Halsey Street/Weidler Street couplet; at the Gateway Transit Center; and in Central Gateway at the southern end of the Area. Recent accomplishments include the development of the Gateway Discovery Park and adjacent Nick Fish mixed-income housing development with commercial and community space. Prosper Portland is partnering with PBOT to improve several unimproved streets including NE Couch and NE Davis Streets. Construction on NE Couch and NE Davis Streets is anticipated to begin in FY 2023-2024. Planning for future improvements has been started and may result in further budget appropriations from remaining contingency to invest in such projects.

#### **Interstate Corridor TIF District**

The Interstate Corridor TIF district was established in 2000. The boundary was amended in August 2011 to add 415 acres (including approximately 185 acres from the OCC district) and remove 230 acres (undevelopable right-of-way). Total acreage is 3,990 (increased from 3,804 in August 2011). Its maximum indebtedness is \$335.0 million of which \$292.2 million has been issued through December 31, 2020. City Council approve an increase in maximum indebtedness to the District in January 2021 increasing total maximum indebtedness by \$67 million to \$402 million. 70% of the additional resources will be allocated to affordable housing per the Set Aside policy. The Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$120.2 million in planned expenditures. Since 2015, \$86.6 million has been spent on affordable housing, with an additional \$67 million planned through FY2025-26.

The district's purpose is to deliver on community-driven economic development, support job growth, and increase affordable housing options. In January 2015, City Council adopted the North/Northeast Neighborhood Housing Strategy which provided direction on how future affordable housing resources should be prioritized. In 2017, Prosper Portland began to implement the N/NE Community Development Initiative – a community-driven prioritization of the district's remaining resources focusing on property ownership and development, business ownership and growth, new middle-income housing opportunities, community livability projects and cultural-business hubs – to foster economic prosperity among communities and individuals that have not fully participated in, or benefited from, economic opportunities in the Interstate Corridor TIF district.

#### Lents Town Center TIF District

The Lents Town Center TIF district was established in 1998 and the plan was amended in June 2008. The plan amendment, which became effective in July 2008, increased maximum indebtedness to \$245.0 million, extended the last date to issue debt to June 2020, and increased the acreage to 2,846. As of December 31, 2021, \$212.8 million of indebtedness has been issued. The Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$47.9 million in planned expenditures. Since 2015, \$38.8 million has been spent on affordable housing. An additional \$9.4 million in affordable housing expenditures are forecast through 2025.

Priorities for investment in the District are based on the Five-Year Lents Action Plan. Prosper Portland and the Portland Housing Bureau have recently completed several projects in the Lents Town Center including Oliver Station, Lents Commons, Asian Health and Service Center, and the Woody Guthrie. Other successful recent investments elsewhere in the district include an affordable housing project at SE 72<sup>nd</sup> and Foster and expansion at the Leach Botanical Garden. Additional future investment will focus on further strengthening the Lents Town Center through redevelopment of the remaining phases of the 92<sup>nd</sup> and Harold project and financial assistance to businesses and commercial properties, particularly along major commercial corridors in the Lents TIF district.

#### **North Macadam TIF District**

The North Macadam TIF district was established in 1999 and its last date to issue debt is June 2025. Total acreage is 447. Its maximum indebtedness is \$288.6 million of which \$211.4 million has been issued through December 31, 2021. This reflects amendments to the district approved by Portland City Council in March 2015, which increased the district area by 45 acres concurrent with the closing of the Education district and extended the district's last date to issue debt by five years. The geography brought into the amended district covers land to the north and east of the original district and is predominantly within the University District subarea of the Central City. The Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$64.1 million in planned expenditures. Since 2015, \$46.4 million has been spent on affordable housing. An additional \$22.7 million in affordable housing expenditures are forecast through 2025.

Future investment will focus on infrastructure and new development. Specific projects contemplated within the five-year budget forecast include potential construction of the remaining unbuilt sections of SW Bond Avenue to support OHSU's ability to continue to expand in the district; partnerships to improve and potentially finish the Willamette River Greenway within in the district; investments in other transportation infrastructure such as the South Portal to ensure adequate transportation access as the district grows; and strategic acquisition to support commercial and/or mixed-use development.

#### **River District TIF District**

The River District was established in 1998 and the plan was amended in June 2009, effective July 2009. The amendment increased the area by 42 acres to a total of 351, increased maximum indebtedness to \$489.5 million, and extended the last date to issue debt to June 2021. In March 2015, the district was again amended to remove 14 acres in tax lots and 22 acres of right of way for a total of 36 acres from the district, resulting in a district with a total of 315 acres. The removal of the acreage added approximately \$475 million in real, personal, manufactured, and utility assessed value to the overall tax base of the taxing jurisdictions, allowing them additional funds to pay for other services. The District reached maximum indebtedness of \$489.5 million in FY 2020-21. The Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$101.9 million in planned expenditures. Since 2015, \$34 million has been spent on affordable housing. An additional \$11.5 million in affordable housing expenditures are forecast through 2025.

The current goals of the district are to: 1) invest in community development, entrepreneurship and redevelopment through implementation of the Old Town Action Plan - including redevelopment of the 4<sup>th</sup> and Burnside and Block 25 (NW Flanders St. and NW 4<sup>th</sup> Ave.) properties, and disposition and potential redevelopment of the Firehouse #2 (NW Glisan St. and NW 3<sup>rd</sup> Ave.) property; 2) implement redevelopment of the Broadway Corridor area, including the 14-acre US Postal Service site with mixed use development that has the potential to connect adjacent neighborhoods, introduce new housing and affordable housing, and provide a significant new job center for the region; 3) initiate early implementation activities related to the renovation of Union Station and related track and platform work as a regional rail transportation connector; and 4) preparing the Centennial Mills site for disposition.

### South Park Blocks TIF District

The South Park Blocks TIF district was established in 1985 and its last date to issue new long-term debt was July 2008. Total acreage was 161 as of June 2008 but was reduced to 156 through a plan amendment which went into effect in July 2008. The district's current acreage decreased to 98 acres following the most recent amendment. Its maximum indebtedness is \$143.6 million of which \$114.0 million has been issued through December 31, 2021. No additional debt will be issued since the district reached its last date to issue debt in 2008. The current Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$2.3 million in planned expenditures, consisting mostly of business development within the downtown retail core including affordable commercial tenanting projects. Since 2015, \$8.3 million has been spent on affordable housing with an additional \$400 thousand in affordable housing expenditures are forecast through 2025.

An amendment to the FY 2021-22 intergovernmental agreement between Prosper Portland and the Portland Housing Bureau transferred \$2.9 million in resources in South Park Blocks for set aside projects in exchange for reducing the set aside in River District by \$2.9 million. No additional expenditures are allocated to the Housing Set Aside since this closeout district has reached the policy's target. Final projects of the district included completing Multnomah County Central Library and Arlene Schnitzer Concert Hall renovations; contributing to improvements at the Portland Art Museum as a regional attractor to downtown and the South Park Blocks; and supporting PSU at the south end of the district, with remaining housing resources focused on renovation of the Joyce Hotel.

# Willamette Industrial TIF District

The Willamette Industrial TIF district was established in 2004 and its last date to issue debt was amended to June 2015 during amendments to districts approved by City Council in March 2015. Total acreage is 756. Its maximum indebtedness was \$200.0 million of which \$5.8 million was issued as of the final date to issue debt in June 2015. The Revised Budget and forecast for FY 2022-23 to FY 2027-28 include approximately \$1.6 million in planned expenditures.

All remaining investments will be targeted toward supporting industrial development and accompanying job growth and small business development through land acquisition and/or loan or grant financial investments.

## **Neighborhood Prosperity Initiative TIF Districts**

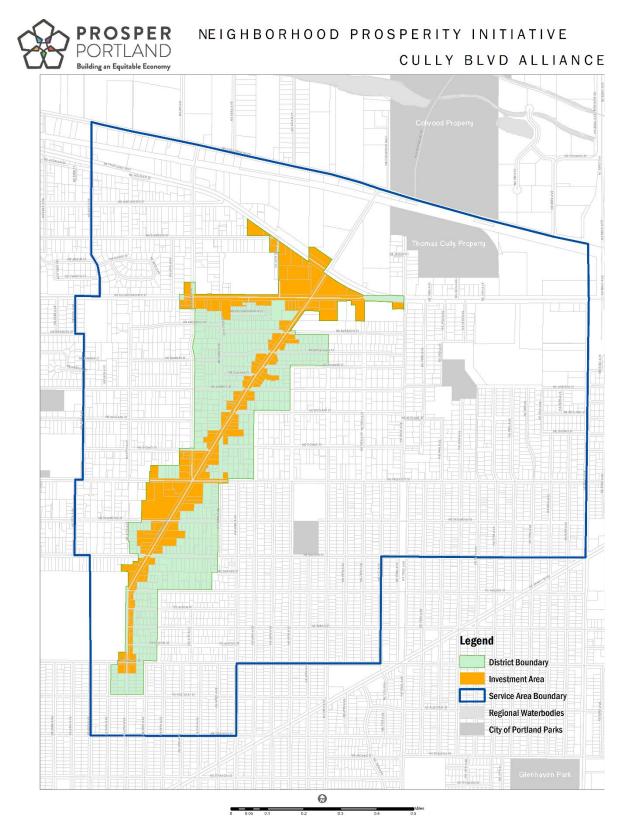

As part of the implementation of the Neighborhood Economic Development (NED) Strategy, the City of Portland and Prosper Portland established the Neighborhood Prosperity Initiative (NPI). Final TIF and granted revenue sharing resources from Multnomah County and the City of Portland occurred in FY 2020-21 for 42nd Avenue, Cully, Division-Midway, and Parkrose. Jade and Rosewood final TIF occurred in FY 2021-22.

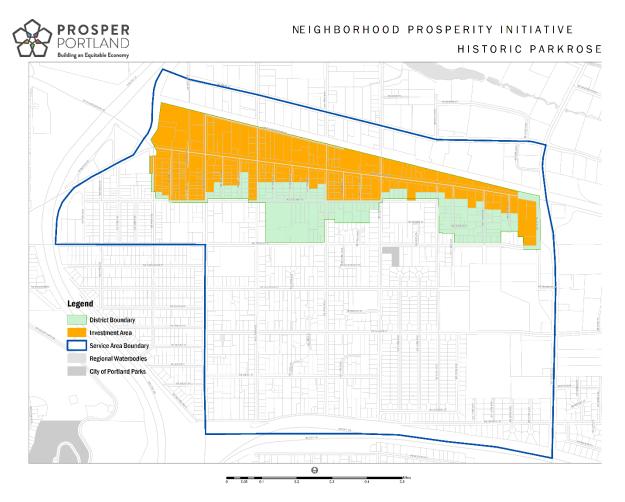

**Description of activities**: Each NPI district focuses on the unique needs of its community, with the goal of growing businesses and increasing employment opportunities. Grants from Prosper Portland enable the organizations to hire staff, make physical improvements, encourage community led development projects and increase the visibility of the district. Prosper Portland staff also provides technical assistance to the districts. Depending on individual district priorities, business technical assistance has been made available to districts from the Inclusive Business Resource Network and workforce navigators are available to assist in securing employment in the districts. NPI districts are in neighborhoods with the lowest average household incomes and higher than average diversity compared to Portland as a whole. All districts will have issued and repaid final indebtedness by FY 2022-23. The newly adopted Cully TIF District will begin in FY 2023-24, encompassing the geographic area of Our 42<sup>nd</sup> Avenue and the prior Cully Boulevard Alliance NPI districts.

The six NPI TIF districts are:

- Our 42nd Avenue
- Cully Boulevard Alliance
- Parkrose
- Rosewood Initiative
- Division-Midway Alliance
- Jade District (82nd Ave & Division)
