DATE: March 13, 2013
TO: Board of Commissioners
FROM: Patrick Quinton, Executive Director
SUBJECT: Report Number 13-08
Adopting an Updated Financial Investment Policy and Process for Internal Review and Approval of Financial Investments

BOARD ACTION REQUESTED
Adopt Resolution No. 6993

ACTION DESCRIPTION
This action will adopt the following Financial Investment Policy to guide future Portland Development Commission (PDC) financial investments:

When investing public resources to achieve its strategic plan, PDC will apply sound financial guidelines and accountable and transparent processes.

This action will also provide specificity as to the Executive Director’s approval; change the minimum number of required Financial Investment Committee (FIC) members; outline FIC’s responsibilities for review and recommendation; further clarify the quarterly comprehensive report of all financial assistance requests; and allow the Executive Director to approve and update the FIC Charter and Procedures (see Attachment A).

BACKGROUND AND CONTEXT
An internal audit review of loan policies in 2004 revealed that:

- There was no clear policy from the PDC Board of Commissioners (Board) regarding overall financial policies and delegations of responsibility and authority;
- PDC offered 37 different financial products, presenting the organization with an extraordinary management and systems support challenge with regard to developing and cataloging different guidelines, and servicing loans;
- There was no coordinated or centralized oversight or management of the entire portfolio of financial assistance products to develop and enforce consistent procedures, integrated processes, and best business practices; and
- There was a long and clear history of established guidelines and approval procedures for loans; however, there was no similar discipline, policy, or procedures for grants or development financing.

In 2007, after staff inventory, review, and reorganization of financial assistance products, the Board adopted new financial assistance program guidelines for Business Finance (Resolution No. 6444), Housing Development (Resolution No. 6443), and Development (Resolution No. 6442).
In June of 2009, at the direction of the Board, staff initiated an intensive project called Finance ReThink, with the charge to:

Conduct an assessment of PDC’s Financial Assistance Products and identify gaps and proposed solutions, improvements for streamlining, and improvements for standardizing. Determine smartest method of combining Loan Review Committee and Investment Committee processes. Identify detailed work, policies, and database alterations resulting from these changes.

One of the first tasks of the Finance ReThink group was to develop an overarching Financial Investment Policy to guide future PDC financial investments as well as the approach to all other elements of PDC’s business processes related to financial assistance and investments. In addition, the group recommended combining the Loan Review Committee and Investment Committee into a new FIC, with new associated delegations of authority and approval processes.

In December 2012, at the request of the Executive Director, FIC members were asked to clarify their roles and responsibilities.

COMMUNITY AND PUBLIC BENEFIT
Adopting an overarching Financial Investment Policy will ensure that decisions about financial investments in local businesses and projects are made with a clear understanding and purpose of supporting PDC’s mission, strategic plan, and urban renewal plan objectives.

Making FIC responsible for undertaking a systematic review and analysis of proposed investments is a best business practice that will ensure program guidelines are followed and investments align with the Financial Investment Policy.

This action will meet PDC’s Effective Stewardship over our Resources and Operation, and Employee Investment Strategic Plan goal.

PUBLIC PARTICIPATION AND FEEDBACK
Staff did not solicit any public participation or feedback.

BUDGET AND FINANCIAL INFORMATION
This action will not require an additional staff to implement. Revised business processes and procedures are anticipated to reduce staff time needed to carry out financial assistance activities and provide better service to customers. There are no other financial or budget impacts.

RISK ASSESSMENT
Adopting the proposed Financial Investment Policy will reduce PDC’s financial and legal risks by ensuring diligent oversight and review of requests for financial assistance.

ALTERNATIVE ACTIONS
Not approving these actions would leave in place the existing Financial Investment Policy. The Board could also choose to amend the proposed policy and/or the structure of the FIC.
