PORTLAND
Building an Equitable Economy

DATE: March 13, 2019
TO: Board of Commissioners
FROM: Kimberly Branam, Executive Director
SUBJECT: Report Number 19-07
Authorizing an Increase in Community Livability Grant Funding to Allen Temple C.M.E. Church in an Amount of \$420,000

BOARD ACTION REQUESTED AND BRIEF DESCRIPTION

Adopt Resolution No. 7303

This action by the Prosper Portland Board of Commissioners (Board) will authorize an increase in Community Livability Grant (CLG) award funding to Allen Temple C.M.E. Church (Allen Temple) from \$280,000 to \$700,000. Prosper Portland funding will provide resources to allow Allen Temple, located at 4236 NE 8th Avenue in the Interstate Corridor Tax Increment Finance (TIF) district (see a map in Attachment A), to fund improvements to the community center located inside a historic church with deep roots in the African-American community.

STRATEGIC PLAN ALIGNMENT AND OUTCOMES

This action delivers on Prosper Portland's Strategic Plan goal of creating healthy, complete neighborhoods by investing in cultural assets in priority neighborhoods. The action also delivers on the N/NE Community Development Initiative Action Plan goal of advancing community livability and support for non-profit organizations.

BACKGROUND AND CONTEXT

Allen Temple is an historic, 9,600 square feet, 106-year-old church located in inner northeast Portland. Allen Temple has been a community institution, providing food bank services, counseling services, referrals for people living with HIV/AIDs, homeless outreach, and social justice training. On February 7, 2015, two electrical fires resulted in extensive damage to the church, forcing the congregation to relocate to Maranatha Church and causing a disruption in the community center services.

Since 2015, the Allen Temple team has sought funding to make improvements to repair the church and resume community center activities. To be eligible for Prosper Portland financial assistance, on August 9, 2017, the Prosper Board through Resolution No. 7248 voted to amend the Interstate Corridor TIF district boundary to include the church property. Shortly thereafter in September 2017, representatives from Allen Temple applied for a Prosper Portland fiscal year (FY) 2017-18 CLG award to restore the fire-damaged church building and make improvements to its community space. Through a competitive process, in November 2017 a CLG evaluation team consisting of staff and members of the N/NE Community Development Initiative Oversight Committee (CDI Oversight Committee) recommended a CLG award for \$280,000 to rebuild a portion of the building, specifically the approximately 4,893 square foot Fellowship Hall community center and mezzanine area. Improvements to the Fellowship Hall will

include a reception area, day care center, community meeting space, a classroom for counseling, Americans with Disabilities Act (ADA) compliant restroom and kitchen, heating and cooling systems, new windows, and a new sprinkler system. Improvements to the mezzanine include a cry room, sound booth, and administrative offices.

Due to delays in the construction timeline, the Allen Temple team was unable to utilize any of the \$280,000 from the FY 2017-18 CLG award. In addition, the project team discovered that the basement walls of the lower level of the building suffered water damage and needed to be replaced. The timeline delays and enhanced scope of required work significantly increased both labor and material costs. Additional construction costs include those incurred with the compliance of Prosper Portland’s Green Building Policy certification requiring that tenant improvements of less than 5,000 square feet comply with the Green Tenant Improvement Guide requirements.

In January 2019, the FY 2018-19 CLG evaluation team, including Prosper Portland staff and members of the N/NE Community Development Initiative Oversight Committee, made a preliminary recommendation to increase CLG grant funding for Allen Temple from \$280,000 to \$700,000 to help assist with the increased costs and enhanced scope.

With Prosper Portland’s additional funding, the church renovation is expected to be completed by fall 2019. The total construction cost for the restoration project is \$2,200,000 and the restoration project will be completed with the following financial and in-kind sources:

SOURCE	AMOUNT
Insurance	\$780,467
Prosper Portland FY 2017-18 CLG Grant	\$280,000
Proposed Prosper Portland FY 2018-19 CLG Grant	\$420,000
City of Portland Special Authority Grant	\$30,000
Oregon Community Foundation	\$20,000
Randall Foundation Grant	\$10,000
Northeast Coalitions of Neighbors Grant	\$1,500
Northwest Natural Gas	\$1,000
Brick Campaign and Donation	\$84,657
Anticipated Income from Sale of Vacant Property	\$300,000
In-Kind Donations	275,0000
Total	\$2,202,624

EQUITY IMPACT

Allen Temple is a historic church with long-standing roots in Portland’s African-American community; the increased CLG award will provide much-needed resources to offer community space in northeast Portland and restore this historic structure.

Prosper Portland's Business and Workforce Equity programs will apply to the Allen Temple renovation. Allen Temple has already contracted with Carleton Hart Architecture, a minority certified firm, as their design team. In addition, PacificMark Construction, a minority certified firm, will act as their general contractor. Constructing Hope, which is an apprenticeship program providing opportunities for people of color in construction trades, will be involved in various phases of the construction. Women in Trade, an apprenticeship program for women in construction trades will also be involved in various phases of the construction.

COMMUNITY PARTICIPATION AND FEEDBACK

As noted, the CLG evaluation committee included both staff and a former member of the N/NE Community Development Initiative Oversight Committee.

There is strong community support for this project. The Portland City Council approved Allen Temple's request to waive 50 percent of building permit fees and on January 3, 2018 through Resolution No. 188756 approved a special authority grant agreement with Allen Temple in an amount not to exceed \$30,000. Allen Temple has also received additional grants from local foundation and significant in-kind services for consultant services, materials, and labor.

BUDGET AND FINANCIAL INFORMATION

There are sufficient resources in the Interstate Corridor Tax Increment Finance district fiscal year (FY) 2018-19 budget and five-year forecast for this action (see Attachment B). With the additional financial assistance from Prosper Portland, the sale of a vacant lot, donations from a brick campaign and in-kind donations, Allen Temple has received the financial support to complete the restoration and community center improvement project.

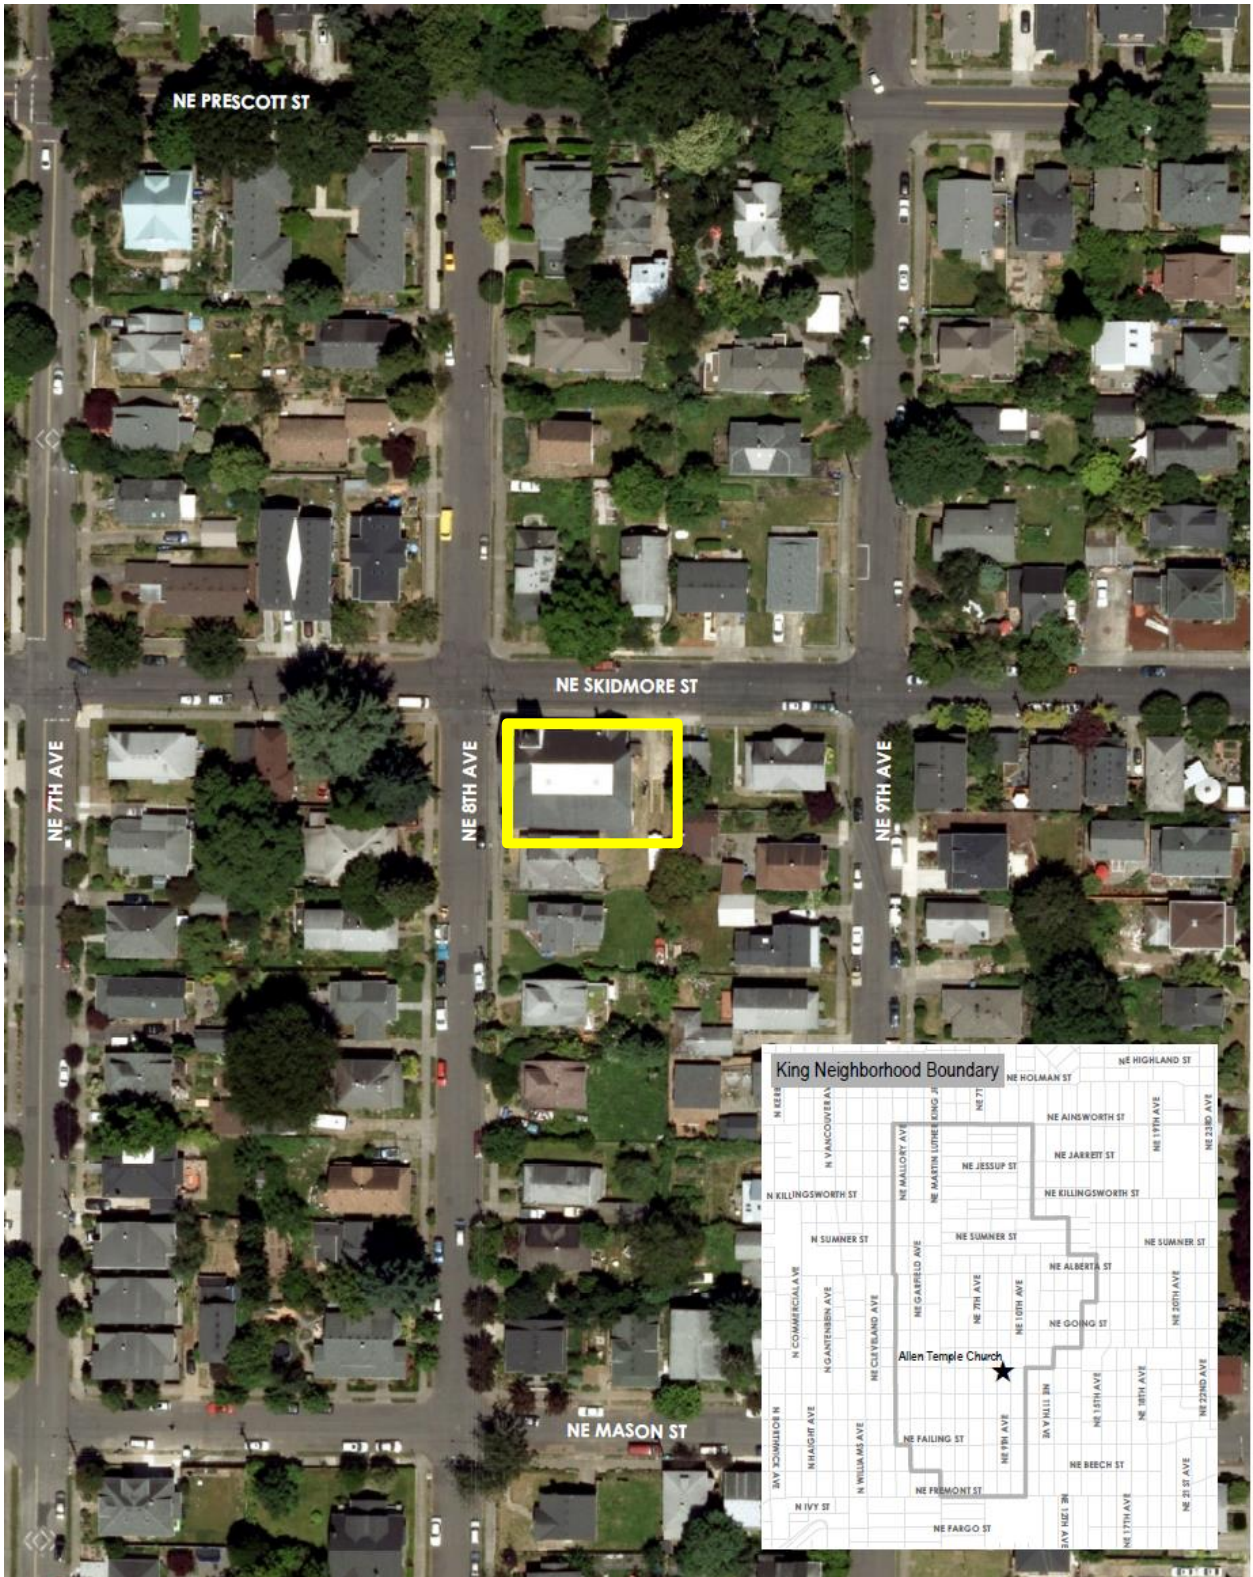

RISK ASSESSMENT

There is a risk that Allen Temple may require additional resources to complete the restoration project; staff has communicated that there are no further CLG grant funds available.
