SCOPE A  – Micro and Small Business Development

1. OVERVIEW

Framework:
Prosper Portland’s 2015-2020 Strategic Plan calls for fostering wealth creation within communities of color and low-income neighborhoods through business development and growth. Service delivery (for enrolled clients and service recipients) should be prioritized to individuals within these populations. Additionally, the Network aims to support growth-oriented businesses.

Priority Areas include:

- Cully Boulevard Alliance (NPI)
- Historic Parkrose NPI
- Our 42\(^{nd}\) Avenue (NPI)
- Lents Town Center Urban Renewal Area & Foster Road subarea
- Division Midway Alliance (NPI)
- The Jade District (NPI)
- The Rosewood Initiative (NPI)
- Gateway Regional Center Urban Renewal Area

\(^1\)2018 MFI limits can be found at [https://www.portlandoregon.gov/phb/article/684577](https://www.portlandoregon.gov/phb/article/684577)
• Interstate Corridor Urban Renewal Area & subareas: Alberta Main Street, St. Johns Center for Opportunity and Lombard Street
• East Portland (east of I-205)

A buffer has been applied to the NPI and Main Street priority areas to allow for expanded service delivery. Being located in a buffer area qualifies a business owner as being in a priority area. The buffer is shown online at: http://bit.ly/M6nyjQ. Subrecipient shall use this map to identify whether the client is located within a priority area. Prosper Portland may identify additional priority areas during the contract year and will update the map and notify Subrecipient at such a time.

D. Eligibility Guidelines for Enrolled Clients

If businesses meet the eligibility guidelines listed below, they may be enrolled for services and activities delivered with funds provided through this Subrecipient Agreement.

Pre-business clients and existing businesses with 50 or fewer employees, including home-based businesses, that are:
• Located in the City of Portland\(^2\) (business, residence or both),
• Owned by people with incomes at or below 120% MFI, and
• Have signed an income eligibility verification form.

In addition, a minimum of 75% of Subrecipient’s enrolled clients are required to have:
• Incomes at or below 80% MFI and
• Five (5) or fewer employees.

Prior to enrollment, Subrecipient must confirm potential client has not previously been enrolled in the Prosper Portland Microenterprise program by submitting an enrollment request to the Prosper Portland Program Manager.

E. Target Audience

Subrecipient should strive to reach the following targets for enrolled clients:

<table>
<thead>
<tr>

**G. Priority Area Business Support**

In addition to one-on-one business technical assistance provided to enrolled clients, Subrecipient will provide additional assistance to service recipients in assigned priority areas. It is expected that advisors maintain a close and collaborative relationship with the district manager and maintain communications regarding capacity, activities and participants served, with exception to confidential or sensitive client information.

This support could be provided in various ways including but not limited to drop-in office hours, small group learning, community outreach, client follow-up services, supporting an area business development strategy and supporting businesses impacted by major area projects (ie infrastructure). Please work with the priority area district manager and Prosper Portland Program Manager to determine what activities would be most appropriate for your assigned area. It is expected that Subrecipient and district manager will enter into a Memorandum of Understanding (MOU).

For Rosewood Initiative and Division Midway Alliance, PSU BOP has agreed to provide a combined six hours of light touch open advising hours a week. PSU BOP will also hold three Business Development Workshop Series in East Portland and will hold seats for 40 participants referred from Rosewood, DMA and APANO (and other Network partners as space allows) to attend. Participants will pay $25 each.

3. **PROGRAM EXPECTATIONS**

**A. Outreach and Recruitment**

Subrecipient will provide sufficient outreach and recruitment efforts necessary to reach target audiences identified above.
B. Network of Services

Subrecipient is part of a larger network of resources, and as such shall work together with other service providers to meet client needs. If a client cannot be served by the Subrecipient, or can be better served by another provider, it is Prosper Portland’s expectation that a referral will be made.

Prosper Portland will hold monthly network meetings to discuss service delivery issues and to provide professional development opportunities for service providers. In addition to these monthly meetings, Prosper Portland will host 3 – 5 full day trainings and/or Network partner work sessions. All business advisors working under this Agreement are required to attend these meetings. Subrecipient contract managers that are engaged in program delivery are encouraged to attend as well.

Supplemental services such as legal support, bookkeeping training, business courses or other professional services may be available to clients for a reduced fee. These services are always changing and the network will be kept up to date on what services are available through a shared document on our Community of Practice Google Drive (https://tinyurl.com/pdxbiznetwork).

C. Guidelines for Exiting Clients

While this program is intended to provide long-term service to business owners, it may be determined that some businesses do not need long-term support. It is Prosper Portland’s expectation that clients should be exited from the program to open spots for new clients if one of the following is true:

- Business is stable, no identified needs for the near future
- Client is not willing, or is unable, to follow up with assigned activities
- Advisor spends less than 2 hours with client on business-related activities in a 3-month period
- Client moves out of city (exceptions can be made)
- Business closes and client doesn’t want to pursue continued business development

Advisor may discuss additional reasons for client exit with Prosper Portland Program Manager to determine best course of action.

D. Core Competencies for Business Advisors

Business advisors working under this Agreement are expected to have the ability to develop positive relationships with clients, motivate them to achieve their goals and provide timely response to their needs, among other soft skills. Business advisors must be able to effectively perform the following assessments:

- Business assessment – Is the business or business idea feasible? Is there a market? Who is their competition?
Entrepreneur assessment – Is the entrepreneur capable, qualified and prepared to run this business effectively? Do they have the resources, skills and support system needed to succeed?

Business advisors must be able to provide high quality counseling, education, and technical assistance on:

- Financial literacy – Budgeting, record keeping, basic accounting concepts, product and project cost analysis, break even analysis
- Basic financial statements – Prepare and analyze profit and loss and balance sheet
- Cash flow projections
- Pricing strategy and profit analysis
- Loan application – Determine appropriate loan amount through financial planning, assist with loan application
- Business plan – Development and implementation, including a marketing strategy
- Registration and licensing requirements

Business advisors must be able to identify specialty issues such as legal, human resources and accounting needs and be able to refer clients to the appropriate professional services.

Prosper Portland shall be made aware of any major staffing changes prior to changes being made. Prosper Portland may request to be involved in the hiring process of core program staff.

E. Reporting

As part of the Network, outcomes reported by Subrecipient will impact the overall outcomes being tracked for the entire network.

Using the online reporting system, Outcome Tracker, Subrecipient shall report all services delivered and outcomes achieved, including but not limited to the following information: client income eligibility and enrollment information, business owner demographics, general business information, business financials, jobs created and retained, business progress reports, services received, hours of technical assistance provided and annual achievements/improvements.

Subrecipient shall submit quarterly narratives to the Prosper Portland Program Manager via a reporting document on the Community of Practice Google Drive. Narratives shall include, at a minimum, client or program successes and challenges. Photos highlighting clients and/or events are appreciated.

Prosper Portland reserves the right to modify reporting fields and request additional information. Subrecipient must keep the data entry current and consistent. Data must be input in Outcome Tracker by the 15th of the month following the end of each quarter, but it is preferred to be entered more frequently in order to have real-time data.

Subrecipient shall maintain the following information in client files: signed income verification form, tax forms if being used for income verification and client service plan. These forms may be maintained electronically.
F. Monitoring

Program monitoring will occur on an annual basis, at a minimum. Subrecipient shall maintain and make available all records related to the program, including services rendered, performance, participant eligibility, demographic data and financial data. At a minimum, records will be reviewed as a part of the annual monitoring process.
